A Sand County Almanac is a combination of natural history, scene painting with words, and philosophy. It is perhaps best known for the following quote, which defines his land ethic: "A thing is right when it tends to preserve the integrity, stability, and beauty of the biotic community. It is wrong when it tends otherwise."

A Sand County Almanac Quotes | GradeSaver

The first section, A Sand County Almanac, is a nature-writing memoir similar to Henry David Thoreau ' s Walden. While at the University of Wisconsin, Leopold purchased a plot of land outside Baraboo in Sauk County (there is no Sand County in Wisconsin; the phrase refers to the region ' s sandy soil). Leopold and his family spent their weekends on this farm and woodland, living in a shack that ...

Approaches the prevalent issues in ecology from an aesthetic viewpoint, stressing the beauty and balance of nature.

Few books have had a greater impact than *A Sand County Almanac*, which many credit with launching a revolution in land management. Written as a series of sketches based principally upon the flora and fauna in a rural part of Wisconsin, the book, originally published by Oxford in 1949, gathers informal pieces written by Leopold over a forty-year period as he traveled through the woodlands of Wisconsin, Iowa, Arizona, Sonora, Oregon, Manitoba, and elsewhere; a final section addresses the philosophical issues involved in wildlife conservation. Beloved for its description and evocation of the natural world, Leopold's book, which has sold well over 2 million copies, remains a foundational text in environmental science and a national treasure.

A classic in the "nature" genre is reprinted here, featuring more than one hundred photographs and numerous eloquent essays on conservation and environmentalism.

First published in 1949 and praised in *The New York Times Book Review* as "a trenchant book, full of vigor and bite," *A Sand County Almanac* combines some of the finest nature writing since Thoreau with an outspoken and highly ethical regard for America's relationship to the land. Written with an unparalleled understanding of the ways of nature, the book includes a section on the monthly changes of the Wisconsin countryside; another part that gathers informal pieces written by Leopold over a forty-year period as he traveled through the woodlands of Wisconsin, Iowa, Arizona, Sonora, Oregon, Manitoba, and elsewhere; and a final section in which Leopold addresses the philosophical issues involved in wildlife conservation. As the forerunner of such important books as Annie Dillard's *Pilgrim at Tinker Creek*, Edward Abbey's *Desert Solitaire*, and Robert Finch's *The Primal Place*, this classic work remains as relevant today as it was forty years ago.

Aldo Leopold's *A Sand County Almanac* has enthralled generations of nature lovers and conservationists and is indeed revered by everyone seriously interested in protecting the natural world. Hailed for prose that is "full of beauty and vigor and bite" (*The New York Times*), it is perhaps the finest example of nature writing since Thoreau's *Walden*. Now this classic work is available in a completely redesigned and lavishly illustrated gift edition, featuring over one hundred beautiful full-color pictures by Michael Sewell, one of the country's leading nature photographers. Sewell, whose work has graced the pages of *Audubon* and *Sierra* magazines, walked Leopold's property in Wisconsin and shot these photographs specifically for this edition, allowing readers to see Sand County as Leopold saw it. The resulting layout is spectacular. But the heart of the book remains Leopold's carefully rendered observations of nature. Here we follow Leopold throughout the year, from January to December, as he walks about the rural Wisconsin landscape, watching a woodcock dance skyward in golden afternoon light, or spying a rough-legged hawk dropping like a feathered bomb on its prey. And perhaps most important are Leopold's trenchant comments throughout the book on our abuse of the land and on what we must do to preserve this invaluable treasure. This edition also includes two of Leopold's most eloquent essays on conservation, "The Land Ethic" and "Marshland Elegy." With this gift edition of *A Sand County Almanac*, a new generation of readers can walk beside one of America's most respected naturalists as he conveys the beauty of a marsh before sunrise or the wealth of history to be found in an ancient oak.

The first sustained study of Leopold's seminal book as well as a work of art, philosophy, and

Get Free A Sand County Almanac

social commentary.

To those who know the charm of Aldo Leopold's writing in *A Sand County Almanac*, this collection from his journals and essays will be a new delight. The journal entries included here were written in camp during his many field trips--hunting, fishing, and exploring--and they indicate the source of ideas on land ethics found in his longer essays. They reflect as well two long canoe trips in Canada and a sojourn in Mexico, where Leopold hunted deer with bow and arrow. The essays presented here are culled from the more contemplative notes which were still in manuscript form at the time of Leopold's death in 1948, fighting a brush fire on a neighbor's farm. *Round River* has been edited by Leopold's son, Luna, a geologist well-known in the field of conservation. It is also charmingly illustrated with line drawings by Charles W. Schwartz. All admirers of Leopold's work--indeed, all lovers of nature--will find this book richly rewarding.

A Zookeeper Excellence Award-winning researcher presents a journey into the psychological lives of bears, outlining her approach to bear study while sharing her experiences of learning about numerous individual bears, from a proud cub who was learning to crack nuts to a hostile bear who refused her friendship.

In 2006, Julianne Lutz Warren (née Newton) asked readers to rediscover one of history's most renowned conservationists. Aldo Leopold's *Odyssey* was hailed by *The New York Times* as a "biography of ideas," making "us feel the loss of what might have followed *A Sand County Almanac* by showing us in authoritative detail what led up to it." Warren's astute narrative quickly became an essential part of the Leopold canon, introducing new readers to the father of wildlife ecology and offering a fresh perspective to even the most seasoned scholars. A decade later, as our very concept of wilderness is changing, Warren frames Leopold's work in the context of the Anthropocene. With a new preface and foreword by Bill McKibben, the book underscores the ever-growing importance of Leopold's ideas in an increasingly human-dominated landscape. Drawing on unpublished archives, Warren traces Leopold's quest to define and preserve land health. Leopold's journey took him from Iowa to Yale to the Southwest to Wisconsin, with fascinating stops along the way to probe the causes of early land settlement failures, contribute to the emerging science of ecology, and craft a new vision for land use. Leopold's life was dedicated to one fundamental dilemma: how can people live prosperously on the land and keep it healthy, too? For anyone compelled by this question, the Tenth Anniversary Edition of Aldo Leopold's *Odyssey* offers insight and inspiration.

Presents a selection of the essential writings of the environmental pioneer, including previously unpublished and hard-to-find pieces, as well as more than one hundred letters and original images.
