Provide your students with an introduction to art that is inclusive and emphasizes critical thinking! Henry Sayre's art appreciation text, *The World of Art*, is an amazing introduction to the world of art. Students with little background in the arts routinely reach out to Henry to share how the text has influenced their lives. This is so meaningful because Henry's inspiration for *A World of Art* was his own students. His students wanted to see themselves reflected in their textbook. Henry decided to write an art appreciation textbook that represented all artists, not just the Western canon found at that time in the other texts. He also

created a text that fostered critical thinking through looking at, talking about, and questioning works of art for his students. The result was *A World of Art* and the new seventh edition continues to build on those two themes-- coverage of contemporary global art and a strong critical thinking framework throughout the text. This edition includes new ways for students to experience art with the new MyArtsLab, which includes ART 21 videos, Discovering Art simulations, Closer Look tours, and an eText of *Writing about Art*, also by Henry Sayre. Why A World of Art? Henry Sayre wrote the first edition of World of Art because he wanted to use a

text in his own art appreciation course that truly represented all artists, not just the Western canon found at that time in the other texts. He also wanted a text that fostered critical thinking through looking at, talking about, and questioning works of art for his students. We are proud to present the new sixth edition of World of Art, which further strengthens these two key aspects of the text while presenting hot topics like video and time-based media.

Over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage. From our paleolithic past to our digitised present,

every continent and culture is covered in an articulate and well-balanced discussion. In this Seventh Edition, the text has been revised to embrace developments in archaeology and art historical research, while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years, providing a new perspective on the latest developments. The insight, elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations, half of which are now in colour. These images, together with the numerous maps and architectural plans, have been chosen to represent the most significant chronological, regional
