Safdie is one of the greatest and most energetic architectural thinkers of our time. This book features essays on his work, illustrated in color photographs.

Catching the very first instant of nascent space, Making Architecture shows how young architects at the ETH Zurich are developing their relation to the substance of architecture, concentrating on the embedded, the implicit filigrane or massive potential contained in materials. This publication reveals scaleless creations, fragile architectures, subtle objects, re-opening a field thought to be fully explored. Echoing the works of Bauhaus, Prof. Andrea Deplazes, Chair of Architecture and Technology, investigates the fundamentals of architecture anew, unlocking the potency and poetry of materiality.

A dynamic and hip collective biography that presents forty-four of America's greatest movers and shakers, from Frederick Douglass to Aretha Franklin to Barack Obama, written by ESPN's TheUndeatead.com and illustrated with dazzling portraits by Rob Ball. Meet forty-four of America's most impressive heroes in this collective biography of African American figures authored by the team at ESPN's TheUndeatead.com. From visionaries to entrepreneurs, athletes to activists, the Fierce 44 are beacons of brilliance, perseverance, and excellence. Each short biography is accompanied by a compelling portrait by Robert Ball, whose bright, graphic art pops off the page. Bringing household names like Serena Williams and Harriet Tubman together with lesser-known but highly deserving figures such as Robert Abbott and Dr. Charles Drew, this collection is a celebration of all that African Americans have achieved, despite everything they have had to overcome.

Architectural engineering deals with the scientific study of the principles of engineering, and their application to design and construction. Research in this field focuses on the aesthetics of design, viable geometry and relevance to the diverse aspects of modern society. Experts are constantly striving to extend the limits of architecture through investigations in building design, materials and energy efficiency. Modern architecture explores the technological aspects of software architecture and computer graphics for elaborate design and planning. Contemporary constructions work within the principles of urban planning and take into consideration resilience to natural hazards and fatigue limits of buildings. This book contains some path-breaking studies in the field of architectural design and engineering. It aims to present this complex subject in the most comprehensive way possible. This book will be beneficial to architects, engineers, urban planners, researchers and students associated with this domain.

The sudden flurry of color and rapid spread of busy prints is the result of the new ease of computer printing in fabric design. Pioneered by Brazilian/British design duo Basso & Brooke, the hyper-real digital technique has spread not just among the small experimental studios, but also to household name design houses like Chanel and Armani, and has been featured on popular television shows such as Project Runway. Following a discussion of how the current techniques have revolutionized hundreds of years of screen-printing, The Print Revolution is organized by an A-Z of keynote designers operating at this cutting edge of fashion. Highlights include selections from Lee Alexander McQueens last full show, a look at Mary Katrantzous innovative and exciting designs, the elegant work of celebrity favorite Prabal Gurung, and Erdem Moralioglus feminine and romantic designs. Accompanied by fashion photography, catwalk imagery, and close-up details of prints and patterns, and crucially supplemented by the designers own notebooks, impressions, quotations and influences, the book is an invaluable reference as well as a visual delight of the inspirations and creations that have given rise to the current explosion of interest in textile design. Tamasin Doe began her career as deputy fashion editor at the Evening Standard. She later became the fashion director of InStyle magazine and coauthored Patrick Cox: Wit, Irony, and Footwear.

From his home base in Denmark, Jakob Schultz interviewed tattooists from around the world, with an emphasis on Scandinavian artists. Each featured artist says a little about his or her craft and then the pictures do the talking. Photographer Michael Caddy Sndergaard captures the personalities and styles of the tattooists, and then the fresh ink of their clients, with great flair. Every speck of ink, right down to the pores of living canvases, is revealed in stunning detail. Inkslingers features Clod the Ripper, Derek Baker, Guil Zekri, Bob Tyrrell, Eva Schatz, Kai Uwe Faust, Colin Dale, Jason Angst, Carl Lfqvist, Jens Bergstrm, Jn Pll, Randy Engelhard, Tony Raita, Erin Chance, Henning Jrgensen, Iver Grtz, Christopher Henriksen, Aaron Bell, Dino Baby, Porky Pete, Coney Island Demon, Tattoo Mini, Dennis Wheeler, and Sabine Grnhj.

Anthony Thiselton's lengthy New International Greek Testament Commentary volume The First Epistle to the Corinthians (2000) has become a standard work on 1 Corinthians. In this "shorter" commentary Thiselton draws on his excellent exegesis from that volume but combines it afresh with keen practical and pastoral application for readers at all levels. Thiselton delves deeply into the context and text of Paul's first Corinthian letter as he suggests, section by section, how the book applies to pastoral and practical issues. He draws vivid parallels between the growing church in Corinth and the twenty-first-century church, demonstrating that today's church also faces a seductive culture of competition and consumerism. The church in Corinth preferred its self-centered theology to the Christ-centered gospel of the wider apostolic church. Paul's response in 1 Corinthians, amplified by Thiselton's commentary, becomes a living, practical, transforming word from God for Christians today.

From the foreword: "One of the High Line's powers is its ability to evoke time, to remind us of the changes we've experienced during our own lives, to bring forth echoes of the past, and to make us guess what life might be like years from now. I love the photos on these pages, because they have that power, too." --Joshua David, Co-Founder of the Friends of the High Line. Ten Avenues Press, in association with Friends of the High Line, announce the publication of High Line Nudes. In 2006, photographer Kevin McDermott took three of his friends up on the abandoned railroad tracks that would become New York City's High Line park to shoot a series of nudes. As McDermott states in his introduction, "at the time I took these photos, what I sought from its beauty was its sense of isolation, being alone, surrounded by nature in the middle of this metropolis." A decade later, this location is now one of the most visited tourist destinations in NYC and one of the largest real estate developments in the world. High Line Nudes captures a seemingly impossible, but beautiful moment in the history of the West Side Rail Yards, Chelsea and an ever changing New York City. The cloth hardcover book is beautifully printed in color and rich black and white duotone images.
