The postwar United States has experienced many forms of populist politics, none more consequential than that of the blue-collar white ethnics who brought figures like Ronald Reagan and Donald Trump to the White House. Blue-Collar Conservatism traces the rise of this little-understood, easily caricatured variant of populism by presenting a nuanced portrait of the supporters of Philadelphia Mayor Frank Rizzo. In 1971, Frank Rizzo became the first former police commissioner elected mayor of a major American city. Despite serving as a Democrat, Rizzo cultivated his base of support by calling for "law and order" and opposing programs like public housing, school busing, affirmative action, and other policies his supporters deemed unearned advantages for nonwhites. Out of this engagement with the interwoven politics of law enforcement, school desegregation, equal employment, and urban housing, Timothy J. Lombardo argues, blue-collar populism arose. Based on extensive archival research, and with an emphasis on interrelated changes to urban space and blue-collar culture, Blue-Collar Conservatism challenges the familiar backlash narrative, instead contextualizing blue-collar politics within postwar urban and economic crises. Historian and Philadelphia-native Lombardo demonstrates how blue-collar whites did not immediately abandon welfare liberalism but instead selectively rejected liberal policies based on culturally defined ideas of privilege, disadvantage, identity, and entitlement. While grounding his analysis in the postwar era's familiar racial fissures, Lombardo also emphasizes class identity as an indispensable driver of blue-collar political engagement. Blue-Collar Conservatism ultimately shows how this combination of factors created one of the least understood but most significant political developments in recent American history.

Michelle Burns, Philadelphia Police Lieutenant, like other female African American lieutenants without a squad to command, was buried behind a desk in homicide. That all changed when the third body was found in Fairmount Park's nature trails. Three young African American males mutilated and left with no clues. When the political heat hit the fan, Michelle is assigned to her first command to lead the newly formed task force to solve these murders, against the wishes of some members of the department. The investigation takes a personal turn, when Michelle, along with her dog Maxwell, finds the mutilated body of her dear friend and neighbor nestled in a group of trees along Forbidden Drive in Fairmount Park. Later she receives a cryptic note with a photograph of herself and Maxwell kneeling beside the body. With the city's eyes upon her task force, Michelle has to deal with the politics of the police department, an upcoming captain's exam, and a mother who wants her to change careers.

The Secret Apartment is an unintended memoir. It began as a way to amuse friends as a diversion in the early days of stress, isolation, and fear in the spring of 2020 and the Pandemic caused by the deadly Covid-19 Virus. We had no way of knowing how bad things were going to be or how long isolation and social distancing might last. It was a frightening time and my only intention was to provide friends with a momentary diversion and some entertainment in hard times. Favorable encouragement pushed me into half-forgotten memories and these stories came tumbling out. My "diversion" came to life as something I have to share with others. I began working on The Secret Apartment as a memoir to be presented as a collection of short stories Though fanciful, these are true stories based on actual events. This is not the product of my imagination. I didn't have to make anything up. I didn't have to and everything presented is both true and correct.I hope you enjoy these stories as much as I enjoyed living them.
