Find 2 identical paper cups, then paint them gold, silver, or whatever color you want your trophy to be. Acrylic craft paint will work the best for this, but you can use spray paint too. Apply 1 coat of paint first, wait for it to dry (about 10 to 20 minutes), then apply a second coat. Let the second coat dry too.

Rigging a character can be a complicated undertaking. Move from a bi-pedal character to a quad- or poly-pedal and, well, things just got real. Where do you begin? Unlike all of those button-pushing manuals out there, Rig it Right! breaks down rigging so that you can achieve a fundamental understanding of the concept, allowing you to rig more intuitively in your own work. Veteran animation professor Tina O ' Hailey will get you up and rigging in a matter of hours with step-by-step tutorials covering multiple animation control types, connection methods, interactive skinning, BlendShapes, edgeloops, and joint placement, to name a few. The concept of a bi-ped is explored as a human compared to a bird character allowing you to see that a bi-ped is a bi-ped and how to problem solve for the limbs at hand. After you have moved beyond basic bi-pedal characters, Rig it Right! will take you to a more advanced level where you will learn how to create stretchy rigs with invisible control systems and use that to create your own types of rigs. Hone your skills every step of the way with short tutorials and editable rigs that accompany each chapter. (17+ rigs!!) Read "Tina ' s 10 Rules of Rigging" and build the foundational knowledge needed to successfully rig your characters. Visit the companion website (www.focalpress.com/cw/ohailey) and expand your newfound knowledge with editable rigs, exercises, and videos that elaborate on techniques covered in the book Coffee is not required – but encouraged.

Art Lab for Kids, Express Yourself is a fun collection of art activities that encourage children to create freely, using their own thoughts and experiences as a guide. One of the most important gifts we can give children is to nurture their creativity and allow them to express themselves freely. There's no better way to express yourself than through creative art projects. This is especially true for children because it gives them an outlet to explore their developing interests and strengths. Art Lab for Kids: Express Yourself contains 52 brand new original art projects that will draw out each young artist as they discover their style, document their thoughts, and build confidence in their unique perspective. Each lesson asks questions and offers personal choices while encouraging diverse approaches and creative thinking. The Colorful Beasts project, which incorporates discussion of endangered animals with the Blue Rider art movement, asks children to use torn colored tissue paper and glue to create an expressive representation of a favorite vulnerable animal. In I Built This City, children imagine and build their own cityscape using columns of newspaper text to make buildings on top of a watercolor painted background, and detailed with marker. Many projects include varying examples and executions of the activity to illustrate and reinforce the open-ended nature of the labs, inspiring children to embrace and share their own voice. Give children the great gift of creative self-exploration with Art Lab for Kids, Express Yourself. The popular Lab for Kids series features a growing list of books that share hands-on activities and projects on a wide host of topics, including art, astronomy, clay, geology, math, and even how to create your own circus—all authored by established experts in their fields. Each lab contains a complete materials list, clear step-by-step photographs of the process, as well as finished samples. The labs can be used as singular projects or as part of a yearlong curriculum of experiential learning. The activities are open-ended, designed to be explored over and over, often with different results. Geared toward being taught or guided by adults, they are enriching for a range of ages and skill levels. Gain firsthand knowledge on your favorite topic with Lab for Kids.
