This timely collection offers a fresh look on the impact of gender perspectives in the discipline of political science at the beginning of the 21st century. Jane Bayes combats the Eurocentric focus that has characterised both fields and suggests viable alternatives for the future of the disciplines.

Artificial intelligence (AI) is the latest technological evolution which is transforming the global economy and is a major part of the "Fourth Industrial Revolution." This book covers the meaning, types, subfields and applications of AI, including U.S. governmental policies and regulations, ethical and privacy issues, particularly as they pertain and affect facial recognition programs and the Internet-of Things (IoT). There is a lengthy analysis of bias, AI's effect on the current and future job market, and how AI precipitated fake news. In addition, the text covers basics of intellectual property rights and how AI will transform their protection. The author then moves on to explore international initiatives from the European Union, China's New Generation Development Plan, other regional areas, and international conventions. The book concludes with a discussion of super intelligence and the question and applicability of consciousness in machines. The interdisciplinary scope of the text will appeal to any scholars, students and general readers interested in the effects of AI on our society, particularly in the fields of STS, economics, law and politics.

I Give You Jesus...The Greatest Gift is a collection of devotionals and poetry to hearten people to "live" their Christian walk. A deeper relationship with God is encouraged through scripture and sensible-realistic illustration. These honest and practical writings can be read individually as they were originally emailed, topically in chapter form, or in its entirety. ---- There are days when we don't have the time for a serious study of God's Word and need to find that special passage of scripture to help when we are in one of our weak moments. When that kind of moment "hits" us, that is when "I Give You Jesus, The Greatest Gift," this carefully written devotional by Daphne Evans, is an inspiration to read. It helps the reader to understand the guidance and loving purpose of God in every aspect of man's relationship to Him. As we read through the various topics that are made clear, let us allow the Holy Spirit to help us become transformed by the renewing of our minds, to truly be all that God wants us to be, and to yield to His Way and His Will. Thank you Daphne for your inspiration and ministry to the Body of Christ! Pastor Ralph T. Lampkins, Mt. Zion U.A.M.E. Church, Newark, Delaware

This title prepares users for the MCSE exam for 70-215: Installing, Configuring, and Administering Microsoft Windows 2000 Server.

Philosophers have long agreed that moral responsibility might not only have a freedom condition, but also an epistemic condition. Moral responsibility and knowledge interact, but the question is exactly how. Ignorance might constitute an excuse, but the question is exactly when. Surprisingly enough, the epistemic condition has only recently attracted the attention of scholars. This volume sets the agenda. Sixteen new essays address the following central questions: Does the epistemic condition require akrasia? Why does blameless ignorance excuse? Does moral ignorance sustained by one's culture excuse? Does the epistemic condition involve knowledge of the wrongness or wrongmaking features of one's action? Is the epistemic condition an independent condition, or is it derivative from one's quality of will or intentions? Is the epistemic condition sensitive to degrees of difficulty? Are there different kinds of moral responsibility and thus multiple epistemic conditions? Is the epistemic condition revisionary? What is the basic structure of the epistemic condition?

WORK HARD, PLAY HARD For the members of Fairy Tail, a guild member's work is never done. While they may not always be away on missions, that doesn't mean our magic-wielding heroes can rest easy at home. What happens when a copycat thief begins to soil the good name of Fairy Tail, or when a seemingly unstoppable virus threatens the citizens of Magnolia Town? And when a bet after the Grand Magic Games goes sour, can Natsu, Lucy, Gray, Erza turn the tables in their favor? Come see what a "day in the life" of the strongest guild in Fiore is like in nine wacky short stories!

Since the end of the Cold War, religion has become an ever more explicit and systematic focus of US foreign policy across multiple domains. US foreign policymakers, for instance, have been increasingly tasked with monitoring religious freedom and promoting it globally, delivering humanitarian aid and development aid abroad by drawing on faith-based organizations, fighting global terrorism by seeking to reform Muslim societies and Islamic theologies, and advancing American interests and values more broadly worldwide by engaging with religious actors and dynamics. Simply put, religion has become a major subject and object of American foreign policy in ways that were unimaginable just a few decades ago. In Finding Faith in Foreign Policy, Gregorio Bettiza explains the causes and consequences of this shift by developing an original theoretical framework and drawing upon extensive empirical research and interviews. He argues that American foreign policy and religious forces have become ever more inextricably entangled in an age witnessing a global resurgence of religion and the emergence of a postsecular world society. He further shows how the boundaries between faith and state have been redefined through processes of desecularization in the context of American foreign policy, leading the most powerful state in the international system to intervene and reshape in increasingly sustained ways sacred and secular landscapes around the globe. Drawing from a rich evidentiary base spanning twenty-five years, Finding Faith in Foreign Policy details how a wave of religious enthusiasm has transformed not just American foreign policy, but the entire international system.
