The authors discuss useful tools and tricks of the trade in pathology practice management. In-depth chapters on coding and billing by nationally known consultant Dennis Padgett will prepare you to evaluate coding and billing practices. Noted law experts Jane Pine Wood and Amelia Larsen, attorneys at McDonald Hopkins, highlight key issues in employment, insurance, and hospital contracts and provide examples of how to deal with tricky issues. Sections on human resources and group dynamics take on the vexing issues that people bring to work. Finally, the authors identify current trends and reason how these might play out. In providing a broad overview of pathology practice management, each chapter employs a didactic framework, including one or more scenarios to illustrate challenges encountered by the writers. This case-based approach facilitates interactive learning and will thus be particularly useful to pathology training programs. Whatever your stage in the field—from resident to senior pathologist, including those in leadership roles—*Pathology Practice Management: A Case-Based Guide* is essential reading.

Organized cancer screening programs are not widely available in developing countries, leading to disproportionately higher mortality rates compared to those in the developed world. This book addresses cost-effective strategies for implementing programs aimed at screening for the early detection of breast, cervical, endometrial, and ovarian cancers. A well woman clinic concept providing such services as part of women's health examinations is proposed, aiming to ensure patient compliance by limiting clinic visits required for initial testing and diagnosis of screen positive cases.
