This book and its companion, *Skills for Communicating with Patients*, Second Edition, provide a comprehensive approach to improving communication in medicine. Fully updated and revised, and greatly expanded, this new edition examines how to construct a skills curricular at all levels of medical education and across specialties, documents the individuals skills that form the core content of communication skills teaching programmes, and explores in depth the specific teaching, learning and assessment methods that are currently used within medical education. Since their publication, the first edition of this book and its companion *Skills for Communicating with Patients*, have become standards texts in teaching communication skills throughout the world, 'the first entirely evidence-based textbooks on medical interviewing. It is essential reading for course organizers, those who teach or model communication skills, and program administrators.

The viva component of the MRCS examination is traditionally the most feared and elusive part of the whole exam. Contained within the syllabus of core and system modules there are favourite examination topics which are more commonly asked than others. This new book covers all these popular subjects and illustrates them with sample viva-style questions. The answers give the candidate guidance on how to respond to these effectively and on what is required to pass the exam. This new book has been written to aid any candidate in preparing to sit a surgical viva, and will be of value to MRCS candidates as well as students for undergraduate surgical finals and surgical registrars prior to the exit examination. Covers the six major subject areas of the MRCS viva exam: applied surgical anatomy, operative surgery, clinical pathology, principles of surgery, applied physiology, and critical care. Includes coverage of the new communication skills section, designed to test the candidate's ability to communicate with patients and supply information to colleagues. Provides over 160 viva topics with subsidiary questions in the style of the exam. Targets the hardest

to-date guidelines, and best-practice recommendations. It underscores the evidence, acceptability, and clinical relevance behind physical assessment techniques. Evidence-Based Physical Examination offers the unique perspective of teaching both a holistic and a scientific approach to assessment. Chapters are consistently structured for ease of use and include anatomy and physiology, key history questions and considerations, physical examination, laboratory considerations, imaging considerations, evidence-based practice recommendations, and differential diagnoses related to normal and abnormal findings. Case studies, clinical pearls, and key takeaways aid retention, while abundant illustrations, photographic images, and videos demonstrate history-taking and assessment techniques. Instructor resources include PowerPoint slides, a test bank with multiple-choice questions and essay questions, and an image bank. This is the physical assessment text of the future. Key Features: Delivers the evidence, acceptability, and clinical relevance behind history-taking and assessment techniques Eschews "traditional" techniques that do not demonstrate evidence-based reliability Focuses on the most current clinical guidelines and recommendations from resources such as the U.S. Preventive Services Task Force Focuses on the use of modern technology for assessment Aids retention through case studies, clinical pearls, and key takeaways Demonstrates techniques with abundant illustrations, photographic images, and videos Includes robust instructor resources: PowerPoint slides, a test bank with multiple-choice questions and essay questions, and an image bank Purchase includes digital access for use on most mobile devices or computers

- This is the latest practice test to pass the TK0-201 CompTIA CTT+ Essentials Exam. - It contains 456 Questions and Answers. - All the questions are 100% valid and stable. - You can reply on this practice test to pass the exam with a good mark and in the first attempt.

'The MRCS Clinical Examination is the final requirement to obtain the professional qualification for the Intercollegiate Membership of the Royal College of Surgeons. This Membership allows the transition from doctor to surgeon and a career in higher surgical training. This standardised clinical examination requires candidates to demonstrate their ability in examining patients, with effective and clear communication. 'The authors should be commended on producing a book that covers all clinical sections of the Examination, in such a concise, comprehensive and structured manner. This study guide will serve as your personal tutor working closely with you, prompting and providing pointers to improve your examination technique. It includes dozens of clinical scenarios, demonstrating how to examine the system and avoid common mistakes. In addition, the candidates can improve their communication skills, which is an integral part of this Examination.

The history taking and communication skill stations are amongst the most difficult postgraduate examinations, where candidates more commonly fail due to an inability to communicate properly with the patient, rather than due to lack of knowledge. Authored by experienced postgraduate examiners, this book offers students a wealth of real-life scenarios in multi-conversational styles, using a seven-step approach to help them understand the questions and provide clear and succinct answers. The scenarios are similar to those most frequently encountered in examinations and the model answers are in a typical style expected between doctor and patient, also taking into account candidates for whom English may not be their first language. The comprehensive text is enhanced by illustrations and figures to assist learning and will be useful not only to candidates preparing for postgraduate clinical examinations, but also to undergraduate students. Key points Provides real-life, conversational-style scenarios between doctor and patient to help students prepare for postgraduate history taking and communication
