This 2nd edition focuses on the preprocedural, procedural, and postprocedural care of the moderately sedated patient. It is designed for any clinician involved in the administration of moderate sedation and written by a clinician involved in the practice on a daily basis. The primary focus of this new edition is to provide all the content and tools necessary to demonstrate competency in moderate sedation/analgesia. Includes a greater focus on the core competencies necessary for clinical practice. Concept Checks are integrated throughout to help the learner assess the mastering of the content presented. Includes the recommended standards of practice from the ANA, AORN, American Academy of Pediatrics, and JCAHO's Sample Policies & Procedures. Contains sample clinical competencies for moderate sedation so the book can be used as a study guide and measurement tool. Incorporates throughout important information on the specific moderate sedation parameters of the pediatric and geriatric patients addressing preprocedural assessment, physiologic variations, pharmacologic considerations and sedative techniques. Includes a comprehensive pharmacologic profile of each medication used in the moderate sedation practice setting. Follows a recommended 'core curriculum' format, but each idea and concept are discussed in detail. Increased integration of actual Clinical Scenarios facilitates the application of content knowledge and utilization of critical thinking skills. Integration of herbal preparations and their impact on pre-sedation care. Latest JCAHO Sedation/Anesthesia Guidelines (2004) incorporated throughout. A larger trim size (8.5 x 11) provides more of a 'manual' feel and allows the reader to make notes and work through various tools throughout the book.

This valuable study resource provides a thorough, comprehensive review for the Certified Emergency Nurse (CEN) exam - and it's the only review book that also helps readers prepare for the Certified Flight Registered Nurse (CFRN) and Flight Paramedic Certification (FP-C) exams. No other resource provides both a review of content as well as over 1,400 questions and a CD-ROM with 3 practice tests. Each chapter features questions with answers and rationales for every question - explaining the "why" behind every answer. Packed with all the essential information needed for a complete review, it includes a new section on critical care, a new chapter on bioterrorism, and new content on conscious sedation issues, RSI, airway management, and safety training. The Transport section now includes new content on CAMTS standards and transport operations. Over 1,400 questions with rationales and references offer excellent preparation for the CEN, CFRN, and FP-C exams. A practice CD-ROM includes 3 sample exams with answers and rationales, and automatic grading helps users assess their mastery of the material. A content outline of must-know topics is provided, followed by practice questions, answers, rationales, and references. New guidelines and medications currently being used for BLS, ACLS, and PALS are discussed. New chapters have been added on Invasive Interventions, Pharmacology, Invasive Monitoring, Bioterrorism, CAMTS Standards, and Transport Operations. Updated and expanded content addresses emerging infectious diseases, CISM for emergency and transport staff, CAMTS standards and transport operations, conscious sedation issues, RSI, airway management, safety training, and age-related changes and differences (pediatric and geriatric).
