Essay on Family Counseling - 2705 Words

COUN 601. Principles of Professional Counseling and Ethics. 3 Credits. Aligned with a spiral approach to learning, students will be introduced to theory, practice, methods, basic principles, and concepts used by counselors in educational settings and community agencies. In subsequent courses, these topics will be revisited in depth.

"This book focuses on students, a pragmatic approach to treatment, regard for multidisciplinary perspectives, and respect for the influence of families on clients. Chapter 1 identifies concerns that new therapists frequently have, such as building confidence in their clinical work. Chapters 2-6 follow the usual time sequence of therapy--from initial contact with clients, to comprehensive assessment, to treatment planning and intervention. Chapters 7-10 deal with specific clinical situations based on presenting problems and the nature of client families. We examine major issues and approaches for working with children and adolescents, older adults, couples, and families that are struggling with serious mental illness. Chapter 11 highlights some common obstacles all therapists encounter, and provides concrete ideas on how to get unstuck when treatment is not progressing. Chapter 12 focuses on an often overlooked part of therapy--termination. In Chapter 13, we conclude the book by looking at emerging issues within family therapy"--

The classic groundbreaking book on family therapy by acclaimed experts Augustus Y. Napier, Ph.D., and Carl Whitaker, M.D. This extraordinary book presents scenarios of one family's therapy experience and explains what underlies each encounter. You will discover the general patterns that are common to all families--stress, polarization and escalation, scapegoating, triangulation, blaming, and the diffusion of identity--and you will gain a vivid understanding of the intriguing field of family therapy. "If you have a troubled marriage, a troubled child, a troubled self, if you're in therapy or think that there's no help for your predicament, The Family Crucible will give you insights . . . that are remarkably fresh and helpful."--New York Times Book Review

The SAGE Encyclopedia of Theory in Counseling and Psychotherapy is a two-volume source that traces theory and examines the beginnings of counseling and psychotherapy all the way to current trends and movements. This reference work draws together a team of international scholars that examine the global landscape of all the key counseling and psychotherapy theories and the theorists behind them while presenting them in context needed to understand their strengths and weaknesses. This is a quick, one-stop source that gives the reader the "who, what, where, how, and why" of contemporary counseling and psychotherapy theory. From historical context in which the theories were developed to the theoretical underpinnings which drive the theories, this reference encyclopedia has detailed and relevant information for all individuals interested in this subject matter. Features & Benefits: Approximately 335 signed entries fill two volumes available in a choice of print or electronic formats. Back matter includes a Chronology of theory within the field of counseling to help students put individual theories within a broader context. A Master Bibliography and a Resource Guide to key books, journals, and organizations guide students to further resources beyond the encyclopedia. The Reader's Guide, a detailed Index and the Cross References combine for effective search-and-browse in the e-version and helps students take the next steps in their research journeys. This reference encyclopedia serves as an excellent source for any individual interested in the roots of contemporary counseling and psychotherapy theory. It is ideal for the public and professionals, as well as for students in counselor education programs especially those individuals who are pursuing a Masters level degree.

This book offers a clear, readable overview of all the knowledge and skills those training as marriage and family therapists and counselors need to pass final degree program, certification or licensing examinations. It is organized into three sections: Basic Clinical Knowledge and Skills, Common Client Problems, and Career Issues. Each chapter includes challenging study questions that enable readers to assess their own level of understanding--15 true/false questions at the outset checking on baseline knowledge, 30 multiple-choice questions interspersed through the text underlining crucial points, and 10 provocative discussion questions at the end facilitating synthesis. Each chapter also provides a glossary of key terms and, in addition to references, annotated suggestions for further reading and Web site exploration. Students and trainees will find Family Therapy Review: Preparing for Comprehensive and Licensing Examinations a resource to which they will go on referring long after it has helped them through their examinations; faculty and established professionals will find it a useful one-stop summary of current thinking about best practice.

A guide for students and practitioners interested in exploring paradoxical and strategic interventions from a systems perspective, this book provides first-hand documentation of Papps rich repertoire of clinical interventions, the results she has achieved with them, and step-by-step process by which the implementations are implemented. Her work is vividly illustrated by candid and detailed case studies that reveal, not only how the technique is applied, but also how it was arrived at and why it is particularly suited to the situation at hand.

Drawing from the author's vast experience as teacher, researcher, and practitioner, Lawrence Shulman's DYNAMICS AND SKILLS OF GROUP COUNSELING equips students in the helping professions with a solid introduction to methods for effective group counseling. Guided by theory, empirical research, years of teaching experience, his own group practice, and the wisdom of colleagues, Shulman's text brings concepts to life with vivid cases that include Record of Service reports and dialogue from actual groups. These illustrative examples connect theory to current practice and address the day-to-day realities of leading counseling groups. Extremely practical, the book presents students with a clear format on how to run a group built around four phases of work: the preliminary (preparatory) phase; the beginning (contracting) phase; the middle (work) phase; and the ending and transition phase. Recognizing the broad applications of these methods, the latter part of the text shows how these lessons can be applied to a wide range of settings. Reflecting the latest research and practices, DYNAMICS AND SKILLS OF GROUP COUNSELING delivers an insightful, authoritative, and comprehensive introduction to the field. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Professor David Entwistle's Integrative Approaches to Psychology and Christianity is now available in a fully revised 3rd edition. Changes and additions have made throughout this unique volume, including: * 42 additional pages * expanded list of models discussed * more questions for discussions, and * an updated bibliography. As disciplines, psychology and theology share an overlapping interest in the nature and functioning of human beings. This book provides an introduction to many of the worldviev issues and philosophical foundations that frame the relationship of psychology and theology, includes scholarly reflection on the integration literature, and surveys five paradigms of possible relationships between psychology and Christianity. The book is designed to help readers become aware of the presuppositional backdrops that each of us brings to these issues, and to understand various approaches for relating psychology and Christianity as partly based on presuppositional assumptions. Questions at the end of each chapter are included to help readers evaluate both the material and their own burgeoning approach to integration. This book is ideal as a textbook for students of psychology and other behavioral and social sciences (social work, sociology, theology, counseling, pastoral counseling) at both the graduate and undergraduate level. It is also written for the broader readership of psychologists, counselors, pastors, and others who are interested in integration.

Mark A. Yarhouse and James N. Sells survey the major approaches to family therapy and treat significant psychotherapeutic issues within a Christian framework, offering timely wisdom for therapeutic practice. Fully updated and revised, this second edition is an indispensable resource for those in the mental health professions, including counselors, psychologists, family therapists, social workers, and pastors.

This best-selling guide to the practicum and internship experience, written expressly for graduate counseling students by a seasoned counselor and educator, is now substantially revised. New and expanded content touches on CACREP developments, trauma-informed care, social media, mindfulness, multicultural competencies, and more. With a strong focus on counseling as a specific professional identity, the book helps graduate students and new counselors develop their own approach to counseling and supervision, maintaining beneficial working relationships, self-care, sharpening writing skills, and record-keeping. A completely new chapter focuses on trauma-informed care developed from evidence-based approaches. Concise and accessible, the book describes everything students need to know as they enter and progress through the practicum and internship process. Replete with case examples and sample forms, it encompasses information on how to select and apply for practicum/internships in all settings. It also examines ethical and legal issues, ensuring student safety at field sites, and clinical issues including teletherapy and termination. Instructor and student ancillary materials are included with this new edition. New to the Third Edition: Updated to include content on 2014 ACA Code of Ethics and

CACREP developments New chapter on trauma-informed care including evidence-based approaches Information on crisis intervention and de-escalation Increased content on supervision styles and models Expanded information on student safety at field sites, job searching, dealing with mandated/resistant clients, and goal setting and self-evaluation Receiving feedback from supervisors and providing feedback to peers Stages of change/client willingness to change as counseling model Discussions about social media, vicarious trauma, cyberbullying, and mindfulness Teletherapy including confidentiality issues, hacking, encryption, and legal issues Multicultural counseling competencies Expanded case studies New Instructor's Manual and PowerPoint slides Key Features: Focuses on counseling as a specific professional identity and mentors students in a supportive, user-friendly style Covers everything students need to know as they enter and progress through the practicum/internship process Includes abundant case examples A concluding chapter on preparing for the job search, résumés, cover letters, and negotiating salary
