Math 2300: Calculus II Project: The Harmonic Series, the Integral Test
Solution: The integral is larger than the first sum, and since the integral converges, the first sum must also converge. The second sum is only 1 larger than the first sum, and since the first sum converges, the second sum must also converge.

mathematical thinking. Comprehensive and evenly paced, the book provides complete coverage of the function concept, and integrates a significant amount of graphing calculator material to help students develop insight into mathematical ideas. The authors' attention to detail and clarity—the same as found in James Stewart's market-leading Calculus text—is what makes this text the proven market leader.
