Since it began in 1907, the Isle of Mann Tourist Trophy has gained a well-deserved reputation as the most challenging—and dangerous—motorcycle race in the world. In T.T. Titans, Matthew Richardson explores a fascinating question: which motorcycles or sidecar outfits have made the strongest contributions to the race over the last century? As Richardson makes his choices, he describes each one in vivid detail. Richardson recounts extraordinary achievements like lap records, race victories, technical innovations and other milestones. Modern bikes from BMW, Honda, Suzuki and Yamaha are featured alongside classic models from Matchless, Norton and Velocette. Richardson also includes profiles of the men who built and rode these exceptional machines—a list that includes many of the best-known names from every era of the sport, from Stanley Woods, Bob McIntyre and Mike Hailwood to Carl Fogarty, Joey Dunlop, Dave Molyneux and John McGuinness.
