Considered the forensic document examiner's bible, Scientific Examination of Questioned Documents is an authoritative and comprehensive reference that focuses on the pertinent advancements made within the field. This newest edition presents the qualifications necessary for a well-trained examiner and details the most up-to-date methodologies used i

After Oscar winner Meridan Mark's first attempt to direct and lead fails miserably, she concocts a duplicitous scheme to deflect a storm of bad press. Exploiting an ardent fan as a stalker, she finds herself once again in the adoring and sympathetic arms of her fans and public instead of being harangued by critics. The press grabs hold of Meridan Mark's "stalking" and projects a far more ominous picture of reality, setting in motion a maelstrom that transcends her intentions.

When it comes to photography, it ' s all about the light. After spending more than thirty years behind the lens—working for National Geographic, Time, Life, and Sports Illustrated—Joe McNally knows about light. He knows how to talk about it, shape it, color it, control it, and direct it. Most importantly, he knows how to create it...using small hot shoe flashes. In The Hot Shoe Diaries, Joe brings you behind the scenes to candidly share his lighting solutions for a ton of great images. Using Nikon Speedlights, Joe lets you in on his uncensored thought process—often funny, sometimes serious, always fascinating—to demonstrate how he makes his pictures with these small flashes. Whether he ' s photographing a gymnast on the Great Wall, an alligator in a swamp, or a fire truck careening through Times Square, Joe uses these flashes to create great light that makes his pictures sing.

The first edition of the BSAVA Manual of Canine and Feline Haematology and Transfusion Medicine was a leader in its field, and this new edition has been eagerly awaited. The basic principles of haematology, which form the core of the Manual, have been updated to include new diagnostic procedures and new treatment strategies. New authors provide a fresh perspective on some topics and there are new chapters on anaemia of inflammation and neoplasia, non-regenerative anaemia, and vascular thrombosis. The author panel is comprised of internationally recognized specialists from Europe, North America, the Middle-East and Australia. These have worked together with the Editors to produce an essential book for the veterinary practice.

An Encyclopaedia for the label producer and label user sectors, this reference provides a comprehensive understanding of the latest terms and terminology for all kinds of label and product decoration solutions.

A look at the German High Command during World War II challenges the myth that the German Generals could have won the war had Hitler not interfered, and maps out the history and the personalities of the German Command Structure.

Explores the potential of Pentium processors, the function of the motherboard, disk interfaces, safety issues, mass storage technology, display systems, parallel and infrared ports, and audio technology.

A heart-warming tale of courage and conviction from India ' s biggest-selling woman author Two decades ago, when Sudha Murty approached a group of devadasis for the first time, determined to make a difference to their lives, they threw a chappal at her. Undeterred, she went back, telling herself she must talk to the devadasis about the dangers of AIDS. This time, they threw tomatoes. But she refused to give up. The Infosys Foundation worked hard to make the devadasis self-reliant, to help educate their children, and to rid the label of the social stigma that had become attached to it. Today, there are no temple prostitutes left in the state of Karnataka. This is the powerful, inspirational story of that change initiative that has transformed thousands of lives.
