discovers unexpected truths about himself and the world. Nominated as one of America ' s best-loved novels by PBS ' s The Great American Read Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. He relates well to animals but has no understanding of human emotions. He cannot stand to be touched. And he detests the color yellow. This improbable story of Christopher's quest to investigate the suspicious death of a neighborhood dog makes for one of the most captivating, unusual, and widely heralded novels in recent years.

"The cardinal rules when it comes to life are: LOVE IS THE ONLY THING WORTH SUFFERING FOR. REALITY IS THE ONLY THING WORTH HAVING. FREEDOM IS THE ONLY THING WORTH DYING FOR." I interrupted, "Shouldn't it be that freedom is worth living for?" "My God," replied Garlic. "Why did I have to get you? Look, candy is worth living for. TV is worth living for. Going to the beach is worth living for. Sex is definitely worth living for. There are an endless number of things that are worth living for, but there is only one thing that is worth dying for, and that is freedom, although sometimes I wonder about the sex thing." "You dog," I replied. "So what is truth?" I asked. Garlic continued. "THERE ARE THREE SPIRITUAL FORCES IN THE UNIVERSE. THEY ARE LOVE, TRUTH,

This book synthesizes and integrates 40 years of research on the semantics of questions, and its interface with pragmatics and syntax, conducted within the formal semantics tradition. A wide range of topics are covered, including weak-strong exhaustiveness, maximality, functional answers, single-multiple-trapped list answers, embedding predicates, quantificational variability, concealed questions, weak islands, polar and alternative questions, negative polarity, and non-canonical questions. The literature on

this rich set of topics, theoretically diverse and scattered across multiple venues, is often hard to assimilate. Veneeta Dayal, drawing on her own research, brings them together for the first time in a coherent, concise, and well-structured whole. Each chapter begins with a non-technical introduction to the issues discussed; semantically sophisticated accounts are then presented incrementally, with the major points summarized at the end of each section. Written in an accessible style, this book provides both a guide to one of the most vibrant areas of research in natural language and an account of how this area of study is developing. It will be a unique resource for the novice and expert alike, and seeks to appeal to a variety of readers without compromising depth and breadth of

family ” in post-communist Poland? Free Market Dogs, edited by Michał Piotr Pręgowski and Justyna Włodarczyk, examines the interactions and relationships of dogs and humans in contemporary Polish culture and society, and explores how Poland ’ s intense exposure to Western—and particularly American—cultural patterns influenced the status of dogs after restoration of democracy in 1989. This book discusses topics such as the emergence of pet cemeteries, dog memoirs, and presidential dogs in Poland; the growing popularity of dog sports and the feminization of said sports; the philosophical and ideological changes in dog training caused by exposure to state-of-the-art methods from American books and videos; dogs in contemporary

collect as much information as I could concerning stray, feral and wild dogs; where they live; where they come from and to look into some more philosophical subjects like animal ethics, animal welfare, etc. I divided the book in four parts: The first deals with definitions and subjects of general interest including the stray dogs. The second looks into the pariah dogs and the third into the wild dogs. I ' ve included as many examples of dogs, cities and countries I have found to give an idea of the extent of the problem, which is not circumscribed to our immediate neighbourhood, but which is huge and worldwide. The fourth describes animal ethics, comprising philosophical, legal and human aspects of the human-dog relationship and beyond.
