The unconditional basic income (UBI) has attracted renewed attention in academia, as well as in public discussions in recent years, and much has been written on the possible consequences of a UBI. However, this is the first book focusing on the UBI in Europe that offers empirical research findings. It includes a survey on preferences for a UBI in the EU; an assessment of the political feasibility of a UBI in the EU; field studies in the Netherlands and Scotland; and the findings of laboratory experiments. Presenting contributions from Dutch and international researchers, this book provides scientific answers to the question of whether a UBI is desirable and feasible in Europe.

The development of the B-1B Lancer bomber was difficult to say the least. Originally conceived to fulfill a USAF requirement for an Advanced Manned Strategic Aircraft, the original B-1A concept aircraft was accused of being a white elephant, capable of performing nothing which could not be achieved at less financial and human expense than an intercontinental ballistic missile. Cancelled by the Carter administration and finally commissioned by President Reagan as the modified B-1B, the Lancer began its duties as a nuclear-armed bomber in the mid-1980s. The end of the Cold War intervened and the jet was removed from its nuclear missions as a result of arms control legislation. However, the 1990s saw the metamorphosis of the Lancer into a potent conventional weapons carrier which has seen action in Iraq, the Balkans and Afghanistan. The Lancer has proved its critics wrong in demonstrating its use as a highly flexible and hard-working bomber, able to undertake diverse missions ranging from CAS to the targeting of weapons-of-mass-destruction installations.

It's time to turn back the clock! In 20 Years Younger, Bob Greene offers readers a practical, science-based plan for looking and feeling their best as they age. The cutting-edge program details easy and effective steps we can all take to rebuild the foundation of youth and enjoy better health, improved energy, and a positive outlook on life. The four cornerstones of the program are: an exercise regimen for fighting muscle and bone loss, a longevity-focused diet, sleep rejuvenation, and wrinkle-fighting skin care. Woven throughout the text is practical advice on changing appearances, controlling stress, staying mentally sharp, navigating medical tests, and much more. Readers will walk away with a greater understanding of how the body ages and what they can do to feel-and look-20 years younger.

No more hiding or people-pleasing up in here, sisters. No more being sidelined in your own life. It is time for us to be brave, to claim our gifts and quirks and emotions. You are set free and set up and set on fire. NOW you can get busy doing what you were placed on this planet to do. NOW you can be honest, honest, honest about all of it, even the hard stuff, even the humiliating stuff, even the secret stuff. NOW you can walk in your convictions of faith and ask new questions unafraid. NOW you can be so free, because you are not searching for value from any source other than your own beautiful soul made piece by

piece by God who adores you and is ready to get on with the business of unleashing you into this world. In this book, I break it down into five self-reflective categories—who I am, what I need, what I want, what I believe, and how I connect—and by working your way through them, you will learn to own your space, ground, and gifts (they are YOURS, sister); be strong in your relationships and lay down passive aggression, resentment, drama, and compliance; say GUILT-FREE what you want and what you need; and welcome spiritual curiosity and all the fantastic change that doing so creates. You with me, beloveds? If we do this work on our own selves now, not only will we discover a life truly worth living, but we will free our daughters to rise up behind us, with spines straight, heads up, and coated in our strength.
