"A memoir and history of the Special Olympics and a meditation on what one can learn about how to live from people with intellectual disabilities, by the chairman of the Special Olympics"--

From some of our most prominent spiritual and religious leaders, poets and thinkers, singers and writers, a book of wisdom to light our way in dark times. At the start of 2020, in what felt already like an age of disorder, our world faced one of the gravest global challenges in a century. Covid-19 raced around the earth, and chaos erupted. Yet in the midst of this crisis, billions of human beings responded with love. Across the globe, people sought to connect, whether in person from a socially distant six feet or via a screen from 10,000 miles away. In that moment, Tim Shriver saw an opportunity for those hungry for community to answer a call to heal, a call to hope, a call to unite. He asked monks and nuns, artists and activists, nurses and doctors, ex-presidents and ex-cons to come together to share messages of inspiration, transformation, and love. This book captures the spirit of that 24-hour event. Featuring stories and insights from Bishop TD Jakes, Elizabeth Gilbert, Van Jones, Amy Grant, Dr. Rheedra Walker, Pastor Rick Warren, Rev. Jacqui Lewis, Jewel, Deepak Chopra and many others, The Call to Unite offers readers a book of wisdom to turn to in hard times - filled with prayers, poems, spiritual insights and lessons to live by that will stand the test of time. Those seeking affirmation, solace, and inspiration need only look inside for guidance in finding the light in any crisis. Only in embracing each other can we amplify the love that creates our global community. Only in coming together can we be our happiest, and our best.

Benjamin Franklin is quoted as saying, "Many men die at 25 and aren't buried until they are 75." This book is intended to wake up these people. Fully Alive uncovers forgotten signs of life in a culture seemingly filled with the opposite. Through action steps that led to his physical, mental, social, and spiritual health, Ken Davis recounts his journey back to the land of the living and the signs of life he found along the way. The anchoring focus is based on the apostle Paul's quest for life, when he said, "I want to know Christ and the power of his resurrection." A power greater than death is available for what we face today? Who doesn't want a piece of that? Filled with narrative stories, humor, and practical help, this book is for anyone who wants to live fully and wonders just what that might look like in daily life. Many

people are lurching in the twilight, hoping to sing once again—living lives of quiet desperation, searching in vain for signs of life. St. Irenaeus said, "The Glory of God is man fully alive." For those who have been sidelined in life, for those tempted to give up, this book screams—Live!

A New York Times bestselling author looks for the meaning of a good life by seeking advice from the very young and the very old. When his first book tour ended, Brad Montague missed hearing other people's stories so much that he launched what he dubbed a Listening Tour. First visiting elementary schools and later also nursing homes and retirement communities, he hoped to glean new wisdom as to how he might become a better grownup. Now, in this playful and buoyant book, he shares those insights with rest of us --timeless, often surprising lessons that bypass the head we're always stuck in, and go straight to the heart we sometimes forget. Each of the book's three sections begins with the illustrated story of "The Incredible Floating Girl." Brad weaves this story together with lessons of success, fear, regret, gratitude, love, happiness, and dreams to reveal the true reason we are here: to fly, and to help others fly. Beautifully designed and featuring Montague's own whimsical 4-color illustrations that appeal to the kid in all of us, *Becoming Better Grownups* shares the purpose and meaning we can all discover merely by listening, and reveals that—in a world that seems increasingly childish—the secret to joy is in fact to become more childlike.

NEW YORK TIMES BESTSELLER — Deepak Chopra joins forces with leading physicist Menas Kafatos to explore some of the most important and baffling questions about our place in the world. "A riveting and absolutely fascinating adventure that will blow your mind wide open!" —Dr. Rudolph E. Tanzi What happens when modern science reaches a crucial turning point that challenges everything we know about reality? In this brilliant, timely, and practical work, Chopra and Kafatos tell us that we've reached just such a point. In the coming era, the universe will be completely redefined as a "human universe" radically unlike the cold, empty void where human life is barely a speck in the cosmos. *You Are the Universe* literally means what it says—each of us is a co-creator of reality extending to the vastest reaches of time and space. This seemingly impossible proposition follows from the current state of science, where outside the public eye, some key mysteries cannot be solved, even though they are the very issues that define reality itself: — What Came Before the Big Bang? — Why Does the Universe Fit Together So Perfectly? — Where Did Time Come From? — What Is the Universe Made Of? — Is the Quantum World Linked to Everyday Life? — Do We Live in a Conscious Universe? — How Did Life First Begin? —The shift into a new paradigm is happening, the authors write. —The answers offered in this book are not our invention or eccentric flights of fancy. All of us live in a participatory universe. Once you decide that you want to participate fully with mind, body, and soul, the paradigm shift becomes personal. The reality you inhabit will be yours either to embrace or to change.— What these two great minds offer is a bold, new understanding of who we are and how we can transform the world for the better while reaching our greatest potential.

In this "revelation" of a biography (USA TODAY), a Pulitzer Prize-winning journalist examines the life and times of Eunice Kennedy Shriver, arguing she left behind the Kennedy family's most profound political legacy. While Joe Kennedy was grooming his sons for the White House and the Senate, his Stanford-educated daughter, Eunice, was hijacking her father's fortune and her brothers' political power to engineer one of the great civil rights movements of our time on behalf of millions of children and adults with intellectual disabilities. Her compassion was born of rage: at the medical establishment that had no answers for her sister Rosemary, at her revered but dismissive father, whose vision for his family did not extend beyond his sons, and at a government that failed to deliver on America's promise of equality. Now, in this "fascinating" (the Today show), "nuanced" (The Boston Globe) biography, "ace reporter and artful storyteller" (Pulitzer Prize-winning author Megan Marshall) Eileen McNamara finally brings Eunice Kennedy Shriver out from her brothers' shadow. Granted access to never-before-seen private papers, including the scrapbooks Eunice kept as a schoolgirl in prewar London, McNamara paints an

extraordinary portrait of a woman both ahead of her time and out of step with it: the visionary founder of Special Olympics, a devout Catholic in a secular age, and an officious, cigar-smoking, indefatigable woman whose impact on American society was longer lasting than that of any of the Kennedy men.
