Download File PDF Geography Memorandum Paper 2 For November 2013

This book draws upon new theoretical insights and fresh bodies of data to historically reappraise partition in the light of its long aftermath. It uses a comparative approach by viewing South Asia in its totality, rather than looking at it in narrow 'national' terms. As the first book to focus on the aftermath of partition, it fills a distinctive niche in the study of contemporary South Asia.

This enlightening book makes visible the lives and works of women who played a critical role in the development of geography as an academic field. A rare and detailed analysis of the geographical work of 30 individual women geographers from 1850 to 1970 Includes oral histories from women who have held appointments in British universities since World War II Makes the work of women geographers visible and challenges the notion of pre 1970s geography as an overwhelmingly masculine field Makes an important contribution to debates about the theoretical and methodological framing of the historiography of geography
