Putting God Into Einstein's Equations: Energy of the Soul is the direct outcome of an unusual and unique collaboration by soul mates Marcia and Jerry Pollock spanning the spiritual and physical worlds. Marcia is deceased, and her contributions come from the powerful intelligent energy of her Divine soul, which is without her physical body in the spirit world. Jerry is alive with his Divine soul, which is constrained within his physical body

on planet Earth. Communicating through thought-energy telepathy or channeling, the authors have written this exquisitely, simply explained book in their humble attempt of gratitude to bring new knowledge to the understanding of God's Essence and our world. The Creator Himself has endorsed our book, "TRUTH, LOVE AND WISDOM LIE WITHIN THESE PAGES." Putting God Into Einstein's Equations: Energy of the Soul is a provocative book that will stay with you long after you finish reading it. Have you ever wondered about how a psychic contacts a spirit or where God comes from? The book answers questions about God, the big bang, Einstein's Relativity Equations and how they fit in with God's energy, soul mates and love, the spirit world of souls, past lives, telepathic thought-

energy communication, channeling, removing negative body-soul energy, intelligence of the soul, independent and combined functions of the soul versus the human brain, acquiring spirituality, miracles, resurrection and reincarnation, the Devil, good and evil, science and spirituality, Creation and Evolution, and how a new soul that God will give us in the future Messianic Age at the End of Days will allow us to live for the eternity according to Einstein's Equations. God is energy and so is our Divine soul. Each of us receives a tiny "piece" of God's virtually infinite energy, and the difference between our energy and that of God is simply the enormous difference in order of magnitude when comparing God's energy to ours. The behavior of this energy mirrors the equations brilliantly originated and

described by Albert Einstein with two exceptions -- the mass,  $m$  referenced in Einstein's famous equation,  $E=mc^2$ , is a special Mass,  $M$ , originating in God's energy particles, and God's and our soul energy travels at one million times the speed of light,  $c$ , or 186 billion miles per second. In fact, this Mass is the source of the independent intelligence and sensory properties found in the soul of all human brains. Putting God Into Einstein's Equations: Energy of the Soul is a provocative and compelling book that weaves together empirical, scientific observation, academic research, and theoretical and theological considerations, bolstered by revelatory, first-hand testimony bearing witness to the existence of the Divine soul in both the physical and spirit worlds. Putting God Into Einstein's Equations are moving, personal reflections on the authors' life experiences, from the thrill of discovering one's true soul mate to both traumatic and joyous events like a descent into bipolar depression, Divine miracles, and the pain and loss associated with the death of a loved one. Equally explored and discussed are practical first hand experiential techniques for hypnotic-spiritual world regression and directing spiritual energy and using light to alleviate negative forces. Above all else, Putting God Into Einstein's Equations seeks to advance an awareness and comprehension of God, drawing upon points of reference as diverse as Qigong and yoga to the word of rabbinical scholars.

In the tidal wave of intellectual argument that followed the 2006 release of Richard Dawkins's *God Delusion* book, a fierce debate has raged between atheism and religion over the existence of God, leaving the world's scientists and laymen largely undecided in their opinion. *God's Illusion Machine* presents a fascinating alternative to a debate that has largely been argued within the framework of Christian versus science concepts. Drawing upon the world's oldest body of knowledge (the Vedas), the author describes the massive illusion to which we are all subjected as we mistakenly believe ourselves to be physical

creations of the material world. In God's Illusion Machine, the material world is gradually exposed as the ultimate virtual reality machine for wayward souls who prefer a self-centred, rather than a God-centred, existence. In contrast to Richard Dawkins's assertion that the religious are suffering a delusion for believing in God, the author argues that both the atheists and the religious are under the spell of God's deluding energy called Mâyä, which acts in reciprocation with a soul's desire to be in illusion within the physical realm. By applying the profound spiritual insights of Vedic knowledge along with a healthy dose of common sense and good humour, God's Illusion Machine is an enthralling exposé of the deceptive nature of the material world and the false claims of materialists

regarding the nature of life and love. It is a triumph of spirituality over both atheistic materialism and religious dogmatism. God's Illusion Machine is a work of major importance realigning Western religion, philosophy, and science with eternal spiritual truths, an enlightening read for both the atheist and the religious, bringing spiritual certainty and true love to bewildered souls in troubled times. For atheists who like a good argument, for the religious who are stuck for a reply to Richard Dawkins, for fans of fantasy and sci-fi where forces of light and illusion contend in battle, and for you, the reader, whatever your disposition, this book will forever change your outlook on life and its meaning.
