Writing the Sky: Observations and Essays on Dermot Healy is a comprehensive collection of critical essays, memoirs, poetry, and other writerly responses devoted to the life and work of the late Dermot Healy (1947–2014). Healy was an accomplished poet, short story writer, novelist, playwright, and editor, and so these essays and observations address the entire range of his eclectic and exciting oeuvre. While paying due tribute to the memory of the man himself, the collection primarily seeks to establish a series of important critical perspectives through which Healy's writings can be properly viewed and assessed. Contemporary writers and poets – including Colm Tóibín, Neil Jordan, Aidan Higgins, Alannah Hopkin, Kevin Barry, Annie Proulx, Michael Longley, Roddy Doyle, Tess Gallagher, Timothy O'Grady, Glenn Patterson, Patrick McCabe, and many others – offer creative reflections on Healy's work, while literary critics provide a wide-ranging foundation for future Healy scholarship. In total, over forty contributors from more than a dozen countries provide insight into one of Ireland's most powerful and unique literary voices. This collection is absolutely crucial for everyone interested in the work of Dermot Healy and for all devotees of Irish literature.

This book explores the concept of 'quiet' – an aesthetic of narrative driven by reflective principles – and argues for the term's application to the study of contemporary American fiction. In doing so, it makes two critical interventions. Firstly, it maps the neglected history of quiet fictions, arguing that from Hester Prynne to Clarissa Dalloway, from Bartleby to William Stoner, the Western tradition is filled with quiet characters. Secondly, it asks what it means for a novel to be quiet and how we might read for quiet in an American literary tradition that critics so often describe as noisy. Examining recent works by Marilynne Robinson, Teju Cole and Ben Lerner, among others, the book argues that quiet can be a multi-faceted state of existence, one that is communicative and expressive in as many ways as noise but filled with potential for radical discourse by its marginalisation as a mode of expression.

For decades, Southeast Asia's Golden Triangle—where the borders of Thailand, Laos, and Burma intersect—has been infamous for its opium and heroin production. But then, in the 1990s, the drug gangs in the Golden Triangle began to produce methamphetamine, a synthetic drug that does not depend on any unreliable crop such as the opium poppy. In Thailand the drug has become known as yaba, “madness drug” or “madness medicine.” Unlike heroin, which is a “downer,” yaba—or speed—is an “upper” that makes those who take it hyperactive and often aggressive. It has led to murders, stabbings, and the kidnapping of innocent people. It breaks down the users mentally as well as physically. It is a real “madness drug.” But who are the merchants of this madness? This book provides the answer. It is based on extensive research, spanning several decades and including a collection of first-hand accounts of the drug trade from law enforcement officers and intelligence officials alike, as well as sources close to the drug traffickers themselves. This book will lead to a better understanding of the Golden Triangle drug trade, how it all began, and how it has grown to become a multi-billion dollar criminal enterprise.
