"An old-fashioned tale of tall talk, high ideals, and irresistible appeal . . . You will not read a historical thriller like this all year . . . [Egan] is a master storyteller." —Boston Globe
“ Egan has a gift for sweeping narrative . . . and he has a journalist ’ s eye for the telltale detail . . . This is masterly work. ” — New York Times Book Review
In this exciting and illuminating work, National Book Award winner Timothy Egan delivers a story, both rollicking and haunting, of one of the most famous Irish Americans of all time. A dashing

young orator during the Great Hunger of the 1840s, Thomas Francis Meagher led a failed uprising against British rule, for which he was banished to a Tasmanian prison colony for life. But two years later he was “back from the dead” and in New York, instantly the most famous Irishman in America. Meagher’s rebirth included his leading the newly formed Irish Brigade in many of the fiercest battles of the Civil War. Afterward, he tried to build a new Ireland in the wild west of Montana—a quixotic adventure that ended in the great mystery of his disappearance, which Egan resolves convincingly at last. “This is marvelous stuff. Thomas F. Meagher strides onto Egan’s beautifully wrought pages just as he lived—powerfully larger than life. A fascinating account of an extraordinary life.” — Daniel James Brown, author of *The Boys in the Boat* “Thomas Meagher’s is an irresistible story, irresistibly retold by the virtuosic Timothy Egan . . . A gripping, novelistic page-turner.” — Wall Street Journal

Named a Best Romance of April by Goodreads, Popsugar, Bustle, and more! “A laugh out loud Regency romp—if you loved the *Bridgertons*, you’ll adore *To Have and to Hoax!*” —Lauren Willig, New York Times bestselling author In this fresh and hilarious historical rom-com, an estranged husband and wife in Regency England feign accidents and illness in an attempt to gain attention—and maybe just win each other back in the process. Five years ago, Lady Violet Grey and Lord James Audley met, fell in love, and got married. Four years ago, they had a fight to end all fights, and have barely spoken since. Their once-passionate love match has been reduced to one of cold, detached politeness. But when Violet receives a letter that James has been thrown from his horse and rendered unconscious at their country estate, she races to be by his side—only to

discover him alive and well at a tavern, and completely unaware of her concern. She ' s outraged. He ' s confused. And the distance between them has never been more apparent. Wanting to teach her estranged husband a lesson, Violet decides to feign an illness of her own. James quickly sees through it, but he decides to play along in an ever-escalating game of manipulation, featuring actors masquerading as doctors, threats of Swiss sanitariums, faux mistresses—and a lot of flirtation between a husband and wife who might not hate each other as much as they thought. Will the two be able to overcome four years of hurt or will they continue to deny the spark between them? With charm, wit, and heart in spades, *To Have and to Hoax* is a fresh and eminently entertaining romantic comedy—perfect for fans of Jasmine Guillory and Julia Quinn.

Many people dream of escaping modern life, but most will never act on it. This is the remarkable true story of a man who lived alone in the woods of Maine for 27 years, making this dream a reality—not out of anger at the world, but simply because he preferred to live on his own. A *New York Times* bestseller In 1986, a shy and intelligent twenty-year-old named Christopher Knight left his home in Massachusetts, drove to Maine, and disappeared into the forest. He would not have a conversation with another human being until nearly three decades later, when he was arrested for stealing food. Living in a tent even through brutal winters, he had survived by his wits and courage, developing ingenious ways to store edibles and water, and to avoid freezing to death. He broke into nearby cottages for food, clothing, reading material, and other provisions, taking only what he needed but terrifying a community

never able to solve the mysterious burglaries. Based on extensive interviews with Knight himself, this is a vividly detailed account of his secluded life—why did he leave? what did he learn?—as well as the challenges he has faced since returning to the world. It is a gripping story of survival that asks fundamental questions about solitude, community, and what makes a good life, and a deeply moving portrait of a man who was determined to live his own way, and succeeded.

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

Genre studies and genre approaches to literacy instruction continue to develop in many regions and from a widening variety of approaches. Genre has provided a key to understanding the varying literacy cultures of regions, disciplines, professions, and educational settings. *GENRE IN A CHANGING WORLD* provides a wide-ranging sampler of the remarkable variety of current work. The twenty-four chapters in this volume, reflecting the work of scholars in Europe, Australasia, and North and South America, were selected from the over 400 presentations at SIGET IV (the Fourth International Symposium on Genre Studies) held on the campus of UNISUL in Tubarão, Santa Catarina, Brazil in August 2007—the largest gathering on genre to that date. The chapters also represent a wide variety of approaches, including rhetoric, Systemic Functional Linguistics, media and critical cultural studies, sociology, phenomenology, enunciation theory, the Geneva school of educational sequences, cognitive psychology, relevance theory, sociocultural psychology, activity theory, Gestalt psychology, and schema theory. Sections are devoted to theoretical issues, studies of genres in the professions, studies of genre and media, teaching and learning genre, and writing across the curriculum. The broad selection of material in this volume displays the full range of contemporary genre studies and sets the ground for a next generation of work.

Explores the issues inherent in critical and postmodern feminism in educational leadership.

How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the

evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.
