The Village Council has approved making an offer to restore a parcel to its Environmental Preserve after over 14 years of it being a missing puzzle piece.

This is a different kind of Science Fiction story. We were sitting around talking at work about what we watched on Saturday morning when were kids. For some of them it was cartoons. For others and me it was the old B westerns. A friend suggests that I should write a western. I decided why not.

Therefore, I wrote Dead Oak Flats. It is a story of a rancher and his friend, a miner, who try to make a go of it on their cattle ranch. It is located on a new planet that is just being settled with a local inhabitant who is not happy about them being there. Of course, there are horses and cattle and bad guys who what to take their mine and ranch away. When I finished I gave it to my friend. He seemed to like it. I hope you will too.

A "lush, fierce, and stunning novel" about a girl growing up in the bohemian world of 1970s Greenwich Village (Roxane Gay). Fourteen-year-old Rainey Royal lives with her father, a jazz musician, in a once-elegant, now-decaying brownstone. Her mother has abandoned them, and Rainey fends off advances from her father's best friend while trying desperately to nurture her own creative drives and build a substitute family. She's a rebel, even a criminal—but she's also deeply vulnerable, fighting to figure out how to put back in place the boundaries her life has knocked down, and more than that, struggling to stay whole in a broken world. From an O. Henry Prize-winning author, Rainey Royal is filled with scarred and aching beauty, the harrowing and ultimately affirming story of a young artist.

The hauntingly prophetic classic novel set in a not-too-distant future where books are burned by a special task force of firemen. 'Another indispensable classic' The Times 'Ray Bradbury's gift for storytelling reshaped our culture and expanded our world' Barack Obama Guy Montag is a fireman. His job is to burn books, which are forbidden, being the source of all discord and unhappiness. Even so, Montag is unhappy; there is discord in his marriage. Are books hidden in his house? The Mechanical Hound of the Fire Department, armed with a lethal hypodermic, escorted by helicopters, is ready to track down those dissidents who defy society to preserve and read books. The classic dystopian novel of a post-literate future, Fahrenheit 451 stands alongside Orwell's 1984 and Huxley's Brave New World as a prophetic account of Western civilization's enslavement by the media, drugs and conformity. Bradbury's powerful and poetic prose combines with uncanny insight into the potential of technology to create a novel which, decades on from first publication, still has the power to dazzle and shock.

#1 NEW YORK TIMES BESTSELLER "Much more than a blood-and-guts thriller...An insightful, moving, and sensitive look at what the war did to a country, its people, and its enemies." - Orlando Sentinel Former army homicide investigator Paul Brenner has just gotten used to the early retirement forced on him after the disastrous end of his last case when his old commanding officer asks him to return for one final mission: investigate a murder that took place in wartime Vietnam thirty years before. Brenner reluctantly accepts out of curiosity and loyalty...and maybe a touch of boredom. He won't be bored for long. Back in Vietnam, Brenner meets expatriate Susan Weber, a woman as exotic, sensual, and dangerous as the nation of her voluntary exile. Brenner is plunged into a world of corruption, lethal double cross, and haunted memories-as he's suddenly thrust back into a war that neither he nor his country ever really stopped fighting.

The one thing you can depend on in Cold Sassy, Georgia, is that word gets around—fast. When Grandpa E. Rucker Blakeslee announces one July morning in 1906 that he's aiming to marry the young and freckled milliner, Miss Love Simpson—a bare three weeks after Granny Blakeslee has gone to her reward—the news is served up all over town with that afternoon's dinner. And young Will Tweedy suddenly finds himself eyewitness to a major scandal. Boggled by the sheer audacity of it all, and not a little jealous of his grandpa's new wife, Will nevertheless approves of this May-December match and follows its progress with just a smidgen of youthful prurience. As the newlyweds' chaperone, conspirator, and confidant, Will is privy to his one-armed, renegade grandfather's second adolescence; meanwhile, he does some growing up of his own. He gets run over by a train and lives to tell about it; he kisses his first girl, and survives that too. Olive Ann Burns has given us a timeless, funny, resplendent novel - about a romance that rocks an entire town, about a boy's passage through the momentous but elusive year when childhood melts into adolescence, and about just how people lived and died in a small Southern town at the turn of the century. Inhabited by characters who are wise and loony, unimpeachably pious and deliciously irreverent, Cold Sassy, Georgia, is the perfect setting for the debut of a storyteller of rare brio, exuberance, and style.
