U&lc magazine (Upper & lower case) was a defining voice in international graphic design between 1973 and 1999. It was in some ways a lifestyle magazine for the design community - providing a fascinating intersection of popular culture and graphic design in the last quarter of the 20th century. The list of editorial contributors to U&lc is long, beginning with founding designer/editor Herb Lubalin; many prominent designers worked on designing entire issues. Their finest work is showcased in this book, in reproductions of selected covers, stories, and illustrations from the nearly 100 quarterly issues that were published. The book leads off with a number of articles about the phenomenon that was U&lc, written by writers, editors, and designers who were closely involved over the years.

Type to Talk reveals and expounds the anecdotes, processes, and wit behind his most interesting and revolutionary designs.

A revered classic of American design delights anew with the freshness and ingenuity of its approach Bradbury Thompson (1911-1995) remains one of the most admired and influential graphic designers of the twentieth century, having trained a generation of design students while on the faculty of the Yale School of Art for more than thirty years. The art director of Mademoiselle and design director of Art News and Art News Annual in the decades after World War II, Thompson was also a distinguished designer of limited-edition books, postage stamps, rationalized alphabets, corporate identification programs, trademarks, and sacred works (most notably the Washburn College Bible). Thompson also designed more than sixty issues of Westvaco Inspirations, a magazine that was published by the Westvaco Corporation and distributed to thousands of printers, designers, and teachers to show the range and versatility of printing papers. Thompson was especially revered for his ability to adapt classic typography for the modern world. Bradbury Thompson: The Art of Graphic Design is a landmark in the history of fine bookmaking. First published by Yale University Press in 1988 and designed by Thompson himself, it was praised by the New York Times as a book in which "art and design are gloriously and daringly mixed." Original texts by the author and other notable designers, critics, and art historians, including J. Carter Brown, Alvin Eisenman, and Steven Heller, explore Thompson's methods and design philosophy, and a newly commissioned afterword by Jessica Helfand attests to the enduring importance of his work. Both a retrospective and a manifesto, the book surveys Thompson's timeless

Published for the first time in paperback, this classic text is now available for a new generation of designers and students.

Louise Fili has been an inspiration for designers around the world since the 1980s, when she raised the bar on book cover design, creating close to two thousand jackets as art director for Pantheon Books. In 1989 Fili founded her own graphic design studio, Louise Fili Ltd, and branched out into the fields of restaurant and food packaging design. Her lavish and elegant typography, often hand drawn, helps advertise and market such well-known brands as Sarabeth's, Bella Cucina, Jean-Georges, and Good Housekeeping, among many others. Known for her intense attention to detail, her fresh reinterpretation of vintage sources, and her passion for all things Italian, Fili has won numerous awards. *Elegantissima*, the first monograph on her work, covers the breadth of her nearly forty-year design career and is a must-have for graphic design students and professionals, as well as anyone interested in advertising, food, restaurants, Italy, and books.
