This is very interesting and very easy as well as powerful programming language.I have tried to include everything and maintain simplicity.Just remember one thing from my side that is {PROGRAMMING IS GAME OF PRACTICES ONLY} .

A comprehensive collection of problems, solutions, and practical examples for anyone programming in Java, "The Java Cookbook" presents hundreds of tried-and-true Java "recipes" covering all of the major APIs as well as some APIs that aren't as well documented in other Java books. The book provides quick solutions to particular problems that can be incorporated into other programs, but that aren't usually programs in and of themselves.

Everything the ColdFusion pro needs to understand Java technology, install and run a Java Web server, write Java apps, and build and deploy JavaServer Pages is in this workbook. Includes practical coverage with loads of code and tips especially for the ColdFusion developer.

A detailed account of real-time systems, including program structures for real-time, phases development analysis, and formal specification and verification methods of reactive systems. The book brings together the 3 key fields of current and future data-processing: distributed systems and applications, parallel scientific computing, and real-time and manufacturing systems. It covers the basic concepts and theories, methods, techniques and tools currently used in the specification and implementation of applications and contains many examples plus complete case studies.

God is Love. To believe in this God of unconditional Love is a lived experience in each person and in each generation everywhere on the globe and all different cultures and historical periods. In the beginning of the nineteenth century we notice in the south of the Netherlands a strong movement to renew and to actualise the Catholic faith in the concrete circumstances of poverty and political neglect. In this way the Congregation of the Sisters of Charity Daughters of Mary and Joseph was founded on 7 July 1820 in 's Hertogenbosch. Similar to several other congregations in the same period St Vincent de Paul was their principal source of inspiration, determined their charism and remained at the centre of their spirituality. Religious life is essentially a lived experience of faith in which concrete persons touched by the incomprehensible Love of God dedicate their life in total surrender to this Love. As a result, they obey to the divine calling to be wholly transformed in love and to become docile instruments of God's overwhelming Charity towards all vulnerable persons - young and old – their brothers and sisters who are stripped of their human dignity, humiliated and enslaved in many subtle ways. In this Vincentian congregation this divine vocation of Charity was originally implemented as a specific service to the education of blind and deaf children but widened to the care of other forgotten groups like victims of trafficking in women and discrimination or subordination of women.
