"[A] fully updated survey of American law that incorporates fresh materials on recent Supreme Court cases, the latest developments in Internet law, and sensational criminal trials"--Flap page 1 of dust jacket.

In this fifth edition of his bestselling classic, Jay Feinman provides an authoritative and up-to-date overview of the American legal system. In the years since the publication of the fourth edition, there have been many important developments on the legal front. The Supreme Court has issued important decisions on presidential powers, freedom of religion, and personal

liberty. Police shootings and the rise of Black Lives Matter has impacted the court system too. The rise of arbitration at the expense of jury trials has affected the rights of consumers, and internet law remains in a state of constant change. This fully updated fifth edition of Law 101 accounts for all these developments and more, as Feinman once again provides a clear introduction to American law. The book covers all the main subjects taught in the first year of law school, and discusses every facet of the American legal tradition, including constitutional law, the litigation process, and criminal, property, and contracts law. To illustrate how the legal system works, Feinman draws from noteworthy, infamous, and even outrageous examples and cases. We learn about the case involving scalding coffee that cost McDonald's half a million dollars, the murder trial in Victorian London that gave us the legal definition of insanity, and the epochal decision of Marbury vs. Madison that gave the Supreme Court the power to declare state and federal law unconstitutional. A key to learning about the law is understanding legal vocabulary, and Feinman helps by clarifying terms like "due process" and "equal protection," as well as by drawing distinctions between terms like "murder" and "manslaughter." Above all, Feinman reveals to readers of all kinds that despite its complexities and quirks, the law can be understood by everyone. Perfect for students contemplating law school, journalists covering legislature, or even casual fans of "court-television" shows, Law 101 is a clear and accessible introduction to the American legal system.

An expose of insurance injustice and a plan for consumers and lawmakers to fight it Over the last two decades, insurance has become less of a safety net and more of a spider's web: sticky and complicated, designed to ensnare as much as to aid. Insurance companies now often try to delay payment of justified claims, deny payment altogether, and defend these actions by forcing claimants to enter litigation. Jay M. Feinman, a legal scholar and insurance expert, explains how these trends developed, how the government ought to fix the system, and what the rest of us can do to protect ourselves. He shows that the denial of valid claims is not occasional or accidental or the fault of a few bad employees. It's the result of an increasing and systematic focus on maximizing profits by major companies such as Allstate and State Farm. Citing dozens of stories of victims who were unfairly denied payment, Feinman explains how people can be more cautious when shopping for policies and what to do when pursuing a disputed claim. He also lays out a plan for the legal reforms needed to prevent future abuses. This exposé will help drive the discussion of this increasingly hot- button issue.

Examines landmark Supreme Court decisions, including United States v. Nixon, Plessy v. Ferguson, and Brown v. Board of Education of Topeka.

The author exposes the attempt by conservatives to enact tort reform that would protect the wealthy and powerful in America, arguing that the ultimate agenda of conservatives is to expand the sphere of influence and legal protections of big business. Reprint.
