Lifecard CF is designed to prevent tampering by the patient. Even if the battery or CF card is accidentally removed, when replaced the recording continues as normal, leaving a gap in the ECG and not a flat line. A back-up rechargeable battery maintains the clock and user settings for over three months when the recorder is not being used.

A REESE’S BOOK CLUB PICK "A hands-on, real talk guide for navigating the hot-button issues that so many families struggle with."--Reese Witherspoon Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the "shefault" parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family -- and then sent that list to her husband, asking for things to change. His response was... underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is Fair Play: a time- and anxiety-saving system that offers couples a completely new way to divvy up chores and responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With four easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, Fair Play helps you prioritize what's important to your family and who should take the lead on every chore from laundry to homework to dinner. "Winning" this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space -- as in, the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try Fair Play? Let's deal you in.

From the New York Times bestselling author of Fair Play and "the Marie Kondo of relationships" comes an inspirational guide for setting new personal goals, rediscovering your interests, cultivating creativity, and reclaiming your Unicorn Space. With her acclaimed New York Times bestseller (and Reese ' s Book Club pick) Fair Play, Eve Rodsky began a national conversation about greater equality on the home front. But she soon realized that even when the domestic workload becomes more balanced, people still report something missing in their lives—that is, unless they create and prioritize time for activities that not only fill their calendars but also unleash their creativity. Rodsky calls this vital time Unicorn Space—the active and open pursuit of creative self-expression in any form that makes you uniquely YOU. To help readers embrace all the unlikely, surprising, and delightful places where their own Unicorn Space may be found, she speaks with trail blazers, thought leaders, academics, and countless real people who have discovered theirs everywhere—from activism to artistic endeavors to second careers. Rodsky reveals what researchers already know: Creativity is not optional. It ' s essential. Though most of us do need to remind ourselves how (and where) to find it. With her trademark mix of research based, how-to advice and big-picture inspirational thinking, Rodsky shows you a clear path to reclaim your permission to have fun, manifest your own Unicorn Space in an already too-busy life, and unleash your special gifts and undiscovered talents into the world.

Snakebites are well-known medical emergencies in many parts of the world, especially in rural areas. Agricultural workers and children are most affected. The incidence of snakebite mortality is particularly high in South-East Asia. Rational use of snake anti-venom can substantially reduce mortality and morbidity due to snake bites. These guidelines are a revised and updated version of those published in 2011. The geographical coverage extends from India in the west to DPR Korea and Indonesia in the east, Nepal and Bhutan in the north, and to Sri Lanka and Indonesia in the south and south-east. Snakes inhabiting the Indonesian islands east of Wallace's line (West Papua and Maluku Islands) are part of the Australasian elapid fauna, differing from those west of this line. This publication passes on a digest of available knowledge about all clinical aspects of snake-bite to medically trained personnel, including medical doctors, nurses, dispensers and community health workers. They will provide sufficient practical information to allow medically trained personnel to assess and treat patients with snake-bites at different levels of the health service.
