New York City is known for its glamour, and nowhere is this more apparent than in its fashion scene. Sharing the pedestal with Paris, Milan, and London as fashion capital of the world, New York continually astounds with its creativity, daring, and innovations in the name of beauty. Yet high fashion means high stakes, as Alex Cooper quickly discovers when a murder rocks New York City's Fashion Week. Along with Detectives Mike Chapman and Mercer Wallace, Alex must reveal the grime beneath the glitz to expose the culprit unless a wolf in model's clothing gets to them first.

"A wild heart beats within New York City. Amid concrete and skyscrapers, the Wildlife Conservation Society works to preserve and protect the animal kingdom both within and beyond the borders of the five boroughs. But dangerous creatures don't always have claws and fangs, as Assistant DA Alexandra Cooper and NYPD detectives Mike Chapman and Mercer Wallace know all too well. Predators lurk close to home, and in the aftermath of the shocking drive-by murder of an important city employee--someone Alex has worked with for years--the trio must discover who the bigger snake is: the killer or the victim."--

New York Times bestselling and Nero Award–winning author Linda Fairstein takes readers to the greatest heights and deepest depths of New York City in this riveting Alexandra Cooper thriller, filled with the former prosecutor's unique blend of authenticity, history, and suspense. *Bad Blood* finds Assistant DA Alexandra Cooper deeply involved in a complicated, high-profile homicide case. Defendant Brendan Quillian, a prominent young businessman, is charged with the brutal strangulation of his beautiful young wife, Amanda. His conviction is not a certainty: Quillian was conveniently out of town on the day of the killing, and he has hired a formidable defense attorney who seems one step ahead of Cooper as the trial opens. But with the help of detectives Mike Chapman and Mercer Wallace, she is confident she can prove Quillian paid a hit man to commit the crime. Halfway through the trial, a major catastrophe alters the course of Alex's case. A cataclysmic explosion rips through New York City's Water Tunnel #3, a spectacular feat of modern engineering that will be completed years in the future. Carved through bedrock six hundred feet underground, the tunnel will replace a vital artery in the city's rapidly deteriorating water supply system. Was the blast caused by terrorism? Political retribution? Or was it merely an accident? Cooper is quickly drawn into the tragedy when she discovers a strange connection linking Brendan Quillian to the tunnel workers killed in the explosion. At the same time, Alex meets a mysterious, handsome stranger. Should she get to know him better? Before the answer is clear, she is pulled back into the case, which is becoming more dangerous by the hour. She and Chapman descend deep into the earth to penetrate the subterranean universe of the sandhogs, as the brotherhood of tunnel workers are colorfully known. Their probe soon leads to another murder victim, whose blood may hold the key to Cooper's mesmerizingly complex case. One closely held secret reveals another, and soon Alex discovers that only by unraveling ancient rivalries among sandhog families will she be able to solve the murder of Amanda Quillian—and save her own life as well. A riveting tale of up-to-the-minute urban intrigue, *Bad Blood* is rich with New York City lore and fascinating legal insights that only Fairstein, Manhattan's former sex crimes prosecutor, can deliver. Told in her signature authentic style, *Bad Blood* is packed with the same twists and turns that made her last novel, *Death Dance*, a runaway bestseller and that never fail to thrill her legions of devoted readers.

New York City. Central Park. For thousands of residents and tourists who fill it every day, it's an enormous urban sanctuary. For one killer it's the perfect hunting ground. A young girl has been found dead in the Ramble, a secluded section of the park made up of winding paths, dense woods, and dead ends. Is she the first victim of a psychopath? Or a clue to other missing women in years past whose remains have never been found? For the answer, Assistant DA Alexandra Cooper and Detective Mike Chapman follow a twisting trail of evidence that takes them deep into the city's dark history—and deeper into the mind of killer whose work has only just begun.

New York Times bestselling author Linda Fairstein returns with a ripped-from-the-headlines thriller that takes Alexandra Cooper into the dark underside of New York City's most storied restaurants and a murder case spanning continents. While Alexandra Cooper is in France visiting her famed restaurateur boyfriend, Luc Rouget, one of his matchboxes promoting his new restaurant is found on the body of a murdered young woman. But before the investigation begins, Alex is summoned back to New York. The distinguished and wealthy Head of the World Economic Bureau has been arrested and accused of attacking a maid in his hotel. Alex prepares the alleged victim to testify, but when a second body is found with Luc's matchbox, she begins to fear that the two cases may not be as unrelated as she thought, and that uncovering the sordid secrets of the city's most wealthy and powerful could cost her and her loved ones everything they hold dear.

New York Times bestselling author Linda Fairstein is at her explosive best as she plunges into the byzantine world of New York City's most powerful and sacred institutions—and unearths the most sinister of secrets... Prosecutor Alexandra Cooper has been called to a Harlem Baptist Church, where a woman has been decapitated and set on fire on the church steps—with the imprint of a Star of David necklace seared into her flesh. Then a second body is found at a cathedral in Little Italy. Alex is blind to the sick and inconceivable motives feeding a particularly vicious serial killer—until she mines the depths of the city's vast and serpentine religious history. What Alex follows is a dangerous path that takes her far beyond the scope of her investigation, and directly into the path of a frightening and inescapable truth.

Contraband cargo-young and female—from a wrecked Ukraine freighter washes up on Rockaway Beach. But one victim died before she even hit the dark waters of the Atlantic. Only one other story has the power to grab New York ADA Alexandra Cooper's attention—that of a New York congressman's dive into disgrace following a sordid sex scandal. When Alexandra discovers that the freighter victim and the congressman's lover are connected in a way that simply can't be coincidence, it strikes her that these cases aren't as unrelated as they seem. She unearths a secret that will not only shatter the entire political landscape of New York, but expose Alexandra to the darkest, most dangerous, and most profoundly disturbing revelation of her career. In her seventeenth Alexandra Cooper novel, New York Times bestselling author Linda Fairstein delivers an edge-of-your-seat thriller that explores the secrets and terrible danger of New York City's waterfront. The Manhattan waterfront is one of New York City's most beautiful vistas, boasting both the noble Statue of Liberty and the George Washington Bridge, the world's busiest for motor vehicles. But in *Devil's Bridge*, Assistant DA Alex Cooper will discover the menace that lurks in this seemingly benign corner of New York City as she and Detective Mike Chapman, in the midst of their own growing relationship, take on a case that forces them into their most vulnerable positions yet apart from each other, as a killer's twisted plan draws ever closer to home.

FINAL JEOPARDY: The days of Assistant DA Alexandra Cooper often start off badly, but she's never faced the morning by reading her own obituary before. It doesn't take long to sort out why it was printed: a woman's body with her face blown away, left in a car rented in Alex's name in the drive of her weekend home. But it isn't so easy to work out why her lodger was murdered - or to be sure that the killer had found the right victim ... LIKELY TO DIE: A leading neurosurgeon is found in her office at a New York hospital, soaked in her own blood and rightly considered a case 'likely to die' before she can be got to the operating theatre. She has also been sexually assaulted and Alexandra Cooper is asked to trawl her records for any cases where a similar modus operandi was used. But before she can properly study the files she has isolated she realises that someone is fearful of her knowledge and that she, too, might be 'likely to die'.
