Some history: In 1991, Ronald Ringma and the late Eugène
van Herpen created a small book called 'The Lotus Drivers
Guide'. This could be used by Lotus owners who were
travelling and in need for information about the nearest
dealer or repair shop. Later, I decided to go digital and the
result is what you are looking at now. Not yet finished, but
already a lot of information about Lotus Cars and related
items.

Conceived by Colin Chapman, the Lotus 72 is one of the most successful Formula 1 cars ever made. This innovative car – with its wedge-shaped profile, side-mounted radiators and inboard front brakes – was driven during 1970 by Jochen Rindt, Formula 1 ' s posthumous World Champion, and also gave Emerson Fittipaldi the World Champion's crown in 1972. Here, in this new Haynes Manual, is a unique perspective on what it takes to restore, maintain and race a Lotus 72, as well as an insight into the design and engineering of this legendary racing car.

This comprehensive 142 page book tells the story of Colin Chapman's two most successful racing cars. Detailed race histories of all the Lotus 49 and 72 chassis' along with biographies of the drivers and cutaway drawings of the cars.

The Lotus Elan was Lotus's definitive roadster. It replaced the elegant but expensive Lotus Elite and was the first car to employ the innovative Lotus steel backbone chassis. The original Elan was produced as a two-seat, open-top sportscar and hardtop coupe from 1962 to 1973. The range was extended by the addition of the 2+2-seater Plus 2 from 1967 to 1974. Lotus introduced an all-new front wheel drive Elan in 1989, the M100, which was produced until 1995. Lotus Elan studies the history and development of all the Elans and describes each model in detail. It gives technical details for all models, examines unusual conversions, and includes driving experiences from Elan owners. A complete and

This book, the first in Evro 's new Formula 1 Greats series, covers one of the most revered Formula 1 cars ever made. Introduced in 1970, the wedge-shaped Lotus 72 competed for six seasons, winning 20 World Championship Grands Prix, two Drivers ' titles (for Jochen Rindt in 1970 and Emerson Fittipaldi in 1972) and three Constructors ' titles (in 1970, 1972 and 1973), racing first in Lotus 's evocative red, white and gold livery, then the equally eye-catching black and gold of the John Player Special period. Pete Lyons, Autosport 's renowned Formula 1 reporter for part of the

Lotus 72 era, explores the car ' s entire race-by-race career in his insightful commentary accompanying a magnificent array of more than 300 photos. The 1970 season: after troubled early development, the 72 finally took over from the long-serving 49, its four consecutive race wins enough to secure the World Championship for Jochen Rindt, posthumously after his death during practice for the Italian Grand Prix. The 1971 season: with promising youngster Emerson Fittipaldi elevated to team leader after Rindt ' s death, great things were expected of the 72 ' s second season but it proved to be winless. The 1972 season: now in black and gold John Player livery, the 72 became far more competitive and Fittipaldi ' s four Grand Prix victories made him World Champion. The 1973 season: Ronnie ' SuperSwede ' Peterson joined Fittipaldi to form a dream team and together they won seven races, but because Lotus ' s spoils were divided between the two drivers Jackie Stewart was able to come through to become World Champion. The 1974 season: still the 72 soldiered on, now as the fall-back car after its successor, the 76, failed to deliver; partnered by Jacky Ickx, Peterson won three Grands Prix. The 1975 season: well beyond its sell-by date, the 72 did a final season but by now it was far from effective, with Ickx ' s second place in the tragic Spanish Grand Prix its best result.

With its solo set-up, more subdued speeds, and endlessly varying events and courses, autocross is the easiest, safest, and least expensive way to get into motorsports. Anyone with a helmet and a car can do it. Of course, it doesn ' t hurt to have some driving skills, which is where this book comes in. As a veteran racer and professional driving coach, Ross Bentley knows what it takes to compete and to win, and he gives readers the benefit of that knowledge in Speed Secrets

7: Autocross Driving Fundamentals. The first in the Speed Secrets series to address a specific form of racing, this volume focuses on the skills critical to autocross success: car handling and driver skill at high speeds on unique courses. Though slower than other motorsports in absolute terms, autocross, with its high number of turns per minute, can challenge even the most expert driver. Adapting his time-proven method of teaching drivers how to go fast, Bentley clearly details the steps and techniques that help autocross drivers maintain control and dominate a course at speed. Though specific to autocross, and essential to mastering its particular challenges, his advice and instruction in this book will prove invaluable to drivers who go on to road racing as well.

Go behind the scenes to explore the history, racing, celebrity fans, and after hours of racing's most glamorous and prestigious round in the F1 championship with The Life Monaco Grand Prix. Monaco sponsored its first race in 1929 and the circuit has been part of the Formula 1 series since 1950. Conducted with the patronage of Monaco ' s royal family, its beautiful street-circuit has made Monaco the most glamorous setting of any F1 race. But the classic architecture and high-profile spectators belie a course notorious for its complexity and challenges. With no safety barriers until 1969, drivers have twice plunged into the harbor among the spectating yachts. Off the circuit, Monaco is a 24-hour spectacle of expensive boats, high-profile parties, celebrity F1 fans, penthouse spectating, and high-roller lifestyle. From the Monte Carlo casino (integral to numerous James Bond films) to top clubs like Amber Lounge, Jimmy ' z, and The Black Lounge to F1 racers ' luxury homes to the takeoffs and landings of countless private jets, Monaco represents the epitome of the jet-setting lifestyle long associated with the

F1 circus. From the first Grand Prix in 1929 to today's star-studded event, The Life Monaco Grand Prix takes the reader on a full lap of this prestigious race.

This latest title in the highly successful my cool vehicle series covers the world of open top motoring. Cruising in a convertible car with the top down started out as an American summer tradition and for many drivers around the world there is nothing better than driving down a country lane with the roof down, the wind sweeping your hair and the sun beating on your neck. The book includes a broad mix of cool convertibles, and their owners, from vintage to classic and modern, with eye-catching photography and locations, captured by specialist car photographer Lyndon McNeil. Convertible cars come in all shapes and sizes from compact city cabriolets such as the Talbot Samba to roadsters such as the Lotus Elan Sprint and grand tourers such as the Aston Martin DB6. Every one of them enjoys a sense of open-air freedom and greater involvement in the driving experience. Think sun, wind and speed. In many ways, the convertible car is the ultimate expression of automotive indulgence. A car with a roof is sensible but a car without a roof is sexy, scintillating and, given the chance, most of us would pay through the nose to own one. From the timeless designs of early models (Lagonda, Rolls Royce Phantom II Continental, Frazer Nash BMW and the MG) to the mid century cars (Nash Metropolitan, Land Rover, Bristol and Renault Caravelle) and the retro/modern (Saab 900, Honda S800, Peugeot 304, VW Golf, Mercedes 380SL and Porsche 914), convertibles are among the most popular and desirable of cars. The convertible has gone through extreme highs and lows during more than a century of automotive history, from near ubiquity at the dawn of the car industry to nearly disappearing in the 1970s; and now once again being a

highly popular type of car. The cars featured illustrate the highs and the lows of convertible design and show how convertible technology advanced from simple cloth tops (the 1931 Rolls Royce Phantom II Continental is an early example) to the advanced self-folding roofs of today and many other design features. Some of the most stylish marques are included: the most expensive in the book is the Frazer Nash BMW and the rarest the Fiat 1100 Barchetta.
