The World Intellectual Property Report 2017 examines the crucial role of intangibles such as technology, design and branding in international manufacturing. Macroeconomic analysis is complemented by case studies of the global value chains for three products – coffee, photovoltaic energy cells and smartphones – to give an insightful picture of the importance of intellectual property and other intangibles in modern production.

An illustrated, comprehensive guide to surviving an attack by hordes of the predatory undead explains zombie physiology and behavior, the most effective weaponry and defense strategies, how to outfit one's home for a long siege, and how to survive in any territory or terrain. Original. 35,000 first printing.

A collection of papers by some of the world's leading specialists on global value chains (GVCs). It examines how GVCs have evolved and the challenges they face in a rapidly changing world. The approach is multi-disciplinary, with contributions from economists, political scientists, supply chain management specialists, practitioners and policy-makers. Co-published with the Fung Global Institute and the Temasek

This book provides a comprehensive picture of mobile big data starting from data sources to mobile data driven applications. Mobile Big Data comprises two main components: an overview of mobile big data, and the case studies based on real-world data recently collected by one of the largest mobile network carriers in China. In the first component, four areas of mobile big data life cycle are surveyed: data source and collection, transmission, computing platform and applications. In the second component, two case studies are provided, based on the signaling data collected in the cellular core network in terms of subscriber privacy evaluation and demand forecasting for network management. These cases respectively give a vivid demonstration of what mobile big data looks like, and how it can be analyzed and mined to generate useful and meaningful information and knowledge. This book targets researchers, practitioners and professors relevant to this field. Advanced-level students studying computer science and electrical engineering will also be interested in this book as supplemental reading.

This flagship publication examines different aspects of the nature and role of international trade in the era of hyperglobalization and considers related policy challenges that will need to be addressed if trade is to contribute to a more stable and inclusive global economic order. Research provides authoritative data and analysis on trade, investment, finance and technology. UNCTAD offers solutions to the major challenges facing developing countries, particularly the poorest and most vulnerable nations. Beyond tailored analysis and policy recommendations, UNCTAD research also generates global standards that govern responsible sovereign lending and borrowing, investment, entrepreneurship, competition and consumer protection and trade rules.

This book constitutes the thoroughly refereed post-conference proceedings of the First International Conference, UCMedia 2009, which was held on 9-11 December 2009 at Hotel Novotel Venezia Mestre Castellana in Venice, Italy. Global value chains (GVCs) have been a feature of the international economic architecture for many years, but scholarly interest in the phenomenon is more recent. Today that interest is intense, emanating from an array of academic disciplines as well as from the policy world. The literature that attempts to understand and explain GVCs is vast, multidisciplinary and no less complex than the phenomenon itself. This volume, jointly produced by the Fung Global Institute and the World Trade Organization, is an attempt to capture the core features and themes of the exploding literature on GVCs. Contents Part I. Supply Chain Perspectives 1. Supply chains in the economics literature 2. Supply chains in the business literature Part II. Supply Chain Issues 3. Supply chains and offshoring 4. Supply chains, upgrading and development 5. Supply chains and risk 6. Supply chains and SMEs 7. Supply chains and services 8. Supply chains and trade in value-added 9. Supply chains and business models 10. Supply chains and sustainability 11. Supply chains and trade policy 12. Supply chains and trade finance

This book constitutes the thoroughly refereed proceedings of the 8th International Conference on Entertainment Computing, ICEC 2009, held in Paris, France, in September 2009, under the auspices of IFIP. The 14 revised long papers, 19 short papers and 23 poster papers and demos presented were carefully reviewed and selected from 105 submissions for inclusion in the book. The papers cover all main domains of entertainment computing, from interactive music to games, taking a wide range of scientific domains from aesthetic to computer science.
