The early non-Oromo writers have distorted the history of the Oromo. Without scientific research, they were speaking of the so-called Oromo migration of the 16th century. Against the unscientific thesis, of the early scholars, this work confirmed the Oromo to be not only the indigenous African peoples, but also belong to the Cushitic Africans who invented the first world civilization. Their egalitarian and holistic culture, the gadaa system is part of the ancient Cushitic civilization. It is the base for modern democratic system of governance. The root word of 'gadaa' is originated from 'Ka', the creator God of the ancient religion of the Cushitic Africans. From this very

name, Ka originated the Oromo word “Waaqa”, which also means creator of everything. This shows that the Oromo are among the first nations who came up with the idea of monotheism. Therefore, this work disqualifies the missionary assumptions describing the Oromo Indigenous Religion (OIR) as Satanism and its religious experts, the Qaalluus as witchdoctors or sorcerers. This dissertation discovered many identical, similar, partial similar and few differing elements between the Oromo Indigenous Religion (OIR) and Oromo Christianity (OC). Also, the study identified many Oromo cultural elements that are compatible to Christianity, therefore must be adopted by the Oromo Christianity. According modern scholarship God revealed himself in every human culture and religion is part of human culture. Therefore, no religion can claim to be “the only true religion”. Based on this principle, this dissertation calls all leaders of religious institutions in Oromia, to change their attitude, develop culture of tolerance, conduct constructive religious dialogue, create the atmosphere of peaceful coexistence of all religions and establish sustainable peace that serves humanity.

comprehensive and well-organized book, now in its Second Edition, shows how complex economic decisions can be made from a number of given alternatives. It provides the managers not only a sound basis but also a clear-cut approach to making decisions. These decisions will ultimately result in minimizing costs and/or maximizing benefits. What is more, the book adequately illustrates the concepts with numerical problems and Indian cases. While retaining all the chapters of the previous edition, the book adds a number of topics to make it more comprehensive and more student friendly. What's New to This Edition • Discusses different types of costs such as average cost, recurring cost, and life cycle cost. • Deals with different types of cost estimating models, index numbers and capital allowance. • Covers the basics of nondeterministic decision making. • Describes the meaning of cash flows with probability distributions and decision making, and selection of alternatives using simulation. • Discusses the basic concepts of Accounting. This book, which is profusely illustrated with worked-out examples and a number of diagrams and tables, should prove extremely useful not only as a text but also as a reference for those offering courses in such areas as Project Management, Production Management, and Financial Management.
