The global development community has articulated many collective aspirations in the Sustainable Development Goals (SDGs) aimed at transforming the world. Given the complicated issues that accompany globalization, State and non-State actors continue to explore the utility of public-private cooperation mechanisms. Public-private cooperation initiatives strive for global governance mechanisms involving oversight by all of the actors and operating frameworks that include multiple states, intergovernmental organizations, NGOs, private sector companies and prominent individuals.

Accurate and accessible, Concentrate law study and revision guides enable you to take exams with confidence. Including revision tips and advice for extra marks, alongside a thorough and focussed breakdown of the key topics and cases, this guide will help you to get the most out of your revision and to maximise your performance in exams.

The Government of Pakistan strongly supports public-private partnership (PPP) initiatives. From 1990 to 2019, Pakistan witnessed 108 financially closed PPP projects, with a total investment of approximately \$28.4 billion. About 88% of these projects are in the energy sector, attracting more than \$24.7 billion, followed by investments in the port sector. In early 2021, Parliament approved the amendments to the 2017 PPP Law, enacting the Public Private Partnership Authority (Amendment) Act 2021. This further strengthens the enabling legal and regulatory framework for developing and implementing PPPs, thereby promoting private sector investment in public infrastructure and related services.

This publication presents a detailed overview of the current state of the public-private partnership (PPP) environment in the Philippines. In over three decades, the country developed a robust public-private partnership (PPP) enabling framework through the Build-Operate-Transfer Law of 2012 and the PPP Center. Among developing member countries of the Asian Development Bank, the Philippines has a relatively mature market that has witnessed 116 financially closed PPPs. Under the government's 2017-2022 Development Plan that has an infrastructure investment target of \$180 billion, PPPs are expected to play a pivotal role in financing national and subnational infrastructure investments. With a pipeline of 37 PPPs, the government is taking various steps to further improve the environment for PPPs.

Enabling power: European Communities Act 1972, s. 1 (3). Issued: 09.06.2009. Made: -. Laid: -. Coming into force: In accord with art. 3. Effect: None. Territorial extent & classification: E/W/S/NL. For approval by resolution of each House of Parliament. Superseded by S.I. 2009/1759 (ISBN 9780111482612)
