<div><div></div><div><div>Two-time governor of Ala, California and prominent businessman after the U.S. annexation, Pio de Jesus Pico was a politically savvy Californio who thrived in both the Mexican and the American periods. This is the first biography of Pico, whose life vibrantly illustrates the opportunities and risks faced by Mexican Americans in those transitional years. Carlos Manuel Salomon breathes life into the story of Pico, who—despite his mestizo-black heritage—became one of the wealthiest men in California (thanks to real estate holdings and who was the last major Californio political figure with economic clout. Salomon traces Pico's complicated political rise during the Mexican era, leading a revolt against the governor in 1831 that swept him into that office. During his second governorship in 1845 Pico fought in vain to save California from the invading forces of the United States. Pico faced complex legal and financial problems under the American regime. Salomon argues that it was Pico's legal struggles with political rivals and land-hungry swindlers that ultimately resulted in the loss of Pico's entire fortune. Yet as the most litigious Californio of his time, he consistently demonstrated his refusal to become a victim. Pico is an important transitional figure whose name still resonates in many Southern California locales. His story offers a new view of California history that anticipates a new perspective on the multicultural fabric of the state.</div></div></div>

<div><div></div><div><div>An NPR Best Book of the Year From 2018 Whiting Award winner Tommy Pico, <i>Junk</i> is a book-length break-up poem that explores the experience of loss and erasure, both personal and cultural. The third book in Tommy Pico's Tees trilogy, <i>Junk</i> is a breakup poem in couplets: ice floe and hot lava, a tribute to Janet Jackson and nacho cheese. In the static that follows the loss of a job or an apartment or a boyfriend, what can you grab onto for orientation? The narrator wonders what happens to the sense of self when the illusion of security has been stripped away. And for an indigenous person, how do these lost markers of identity echo larger cultural losses and erasures in a changing political landscape? In part taking its cue from A.R. Ammons's <i>Garbage</i>, Tees names this liminal space "Junk," in the sense that a junk shop is full of old things waiting for their next use; different items that collectively become indistinct. But can there be a comfort outside the anxiety of utility? An appreciation of "being" for the sake of being? And will there be Chili Cheese Fritos?</div></div></div>

<div><div></div><div><div>This book offers a re-evaluation of Giovanni Pico della Mirandola, the prominent Italian Renaissance philosopher and prince of Concord. It argues that Pico is part of a history of attempted concordance between philosophy and theology, reason and faith. His contribution is a syncretist theological philosophy based on Christianity, Platonism, Aristotelianism and Jewish Kabbalism. After an introduction, Chapter 2 discusses Pico's career, his power-relations and his work. Chapters 3 and 4 place his three pillars of Platonism, Aristotelianism and Kabbalism in their historical context, examines shared histories, and introduces the scholars around Pico who contributed so much in each of these traditions (introducing, for example, Christian Kabbalism), including exploring Pico's complex relationship with Marsilio Ficino. Chapter 5 examines the problems of concordance within Pico's cosmology and metaphysics, including the question of God and the role of the Intellect. Chapter 6 describes Pico's 'exceptionalist' version of the mystical ascent as an individualized ascetic experience. Pico eschews the contemporary desire to use a renewed christian thinking or christian-classical metaphysics to change the world (towards a Golden Age or a 'second coming') to present a personal path to God, with no return to the world.</div></div></div>

<div><div></div><div><div>The early history of the city of Pico Rivera began in 1887 when two land developers, J. Fletcher Isbell and W. T. Bone, bought the Rivera town site from Joseph Hartley Burke, Louis L. Bequette, and A. A. Bermudez. Rivera literally means along the river, and today's city boundaries are the Rio Hondo on the west and the San Gabriel River on the east. Rivera developed when the Santa Fe Railroad came through the southern portion of present-day Pico Rivera. The township of Pico was subdivided into lots beginning in 1921. Its name derived from the last Mexican governor of California, Don Pio de Jesus Pico, who built his country home, El Ranchoito, along the San Gabriel River. Over the years the two communities grew close, eventually incorporating as one in 1958. The year 2008 marks Pico Riveras 50th anniversary. This volume documents Pico Rivera from its agricultural past, through its transformation, and into modern suburbia.</div></div></div>
