Authors Bob Frank, Ben Bernanke, and introducing Kate Antonovics from the University of California San Diego, present a coherent short list of core principles in introductory economics and reinforce them by illustrating and applying each in numerous contexts. With engaging questions, explanations and exercises, the authors help students relate economic principles to a host of everyday experiences such as going to the ATM or purchasing airline

Australasian students. The key questions students of first year economics ask themselves are: “Why am I here?” and “Will I ever use this?” Hubbard Essentials of Economics answers these questions by demonstrating that real businesses use economics to make real decisions every day. Each chapter of the text opens with a case study featuring a real business or real business situation, refers to the study throughout the Chapter, and concludes with An Inside Look—a news article format which illustrates how a key principle covered in the Chapter relates to real business situations or was used by a real company to make a real business decision.

concise, and economical alternative to the typical textbook. This text includes a built-in study guide that enables students to reinforce concepts and better comprehend the material. The book is spiral bound which allows it to lay flat when open, making it easier for students to work the problems in the study guide. Supplemental materials available for adopting instructors include an Instructor's Manual, Test Bank, and Power Point slides--all prepared by the author.
