organizations close the distance. With SharePoint, groups construct web sites specifically for collaboration--sites where individuals can capture and share ideas, and work together on documents, tasks, contacts, and events. It's the next best thing to being in the room together. Unfortunately, much of the

documentation for SharePoint is written to help system administrators get it up and running, which often leaves end users in the dark. The SharePoint User's Guide takes another approach: this quick and easy guide shows you what you need to know to start using SharePoint effectively and how to get the most from it. You'll learn how to create
