In this Advanced Crystal Reports 2011 training course, expert trainer and author Guy Vaccaro covers advanced topics and tools available to you in Crystal Reports. This course is for users that are already familiar with the basic operation of Crystal Reports, and want to get more in-depth with its capabilities. Guys starts you off easy, with a quick review of some of the basics of Crystal Reports, and then take you right into some of the more complex features. You begin with conditional formatting then move on to working with parameter fields and report alerts. You will learn how to create multiple sections, and sub reports. Advanced charting is covered, along with cross-tabs, formulas, even a chapter on SQL commands. You finish the training course with a quick look at the data map tool and how to distribute your reports. By the completion of this computer based training video on SAP Crystal Reports 2011, you will have a deeper grasp of the advanced features that are available to you, allowing you to present your data in easy to understand and visually appealing ways. Working files are included to allow you to work with the author throughout this training course.

"In this training course for SAP Crystal Reports 2011, veteran trainer Guy Vaccaro teaches you how to use this powerful enterprise-level business intelligence software. You will learn how to connect to your data sources, design reports, and distribute your reports as required. You start by learning the basics of creating a report - making a connection to a database, selecting your tables and views, adding fields, and finally, saving your report. From there, using audio and video training techniques in this computer based training course, Guy teaches you how to format your report, and deal with special field data such as dates, non-data items, and sorting your data. You will continue to learn the features of SAP Crystal Reports 2011 with subjects such as filtering your data, grouping reports together, and using paramaters. Finally, you will explore some more advanced features such as formula fields, using the report wizard, linking data tables, and distributing your report via email, Excel, and more. As a bonus, Guy has included a chapter on how to use the Workbench, included with Crystal Reports. By the conclusion of this video based training course for SAP Crystal Reports 2011, you will be fully capable of connecting to your data source, and creating rich, informative reports, and distributing these reports. Working files are included, to allow you to work alongside the author as he teaches you the software."--Resource description page.

Crystal Reports 2011 is a powerful software tool for turning raw data into corporate decision-making information. End-users and report developers alike use Crystal Reports to extract and format information, and Crystal Reports is one of the most popular packages for corporate reporting. As powerful as it is, Crystal Reports is not known for having a gentle learning curve—in fact, many new users can find the task of extracting what they need from the program a daunting one. Fortunately for these new users, there's CRYSTAL REPORTS 2011 FOR DEVELOPERS: REPORT DESIGN AND INTEGRATION. Covering Crystal Reports 2011, Crystal Reports for Enterprise XI 4.0, Crystal Reports for Visual Studio 2010, and Crystal Reports for Eclipse, CRYSTAL REPORTS 2011 FOR DEVELOPERS: REPORT DESIGN AND INTEGRATION provides a solid introduction for any report or application developer just getting started with Crystal Reports. This book even includes chapters on integrating Crystal Reports into a .Net or Java application and the new SAP Crystal Reports for Enterprise platform and design environment. Going beyond the sample reports that ship with the product, CRYSTAL REPORTS 2011 FOR DEVELOPERS: REPORT DESIGN AND INTEGRATION is filled with step-by-step essentials and real-world examples, showing readers how to take full advantage of Crystal Reports key features so that they can create information-rich, quality reports from their own data and integrate them into their own applications. Many of the chapters include exercises to give you additional practice in each area covered in the chapter. The files that correspond with the exercises can be downloaded from www.courseptr.com/downloads.

Provides information on using Crystal Reports to create presentations and reports from a variety of data sources.

The authorized guide to the latest edition of the #1 business intelligence software product - Crystal Reports. More than 16 million licenses of Crystal Reports have been shipped to date. This book is a reference designed to provide hands-on guidance for the latest release of the product suite. The latest version of Crystal Reports and the Business Objects enterprise reporting suite delivers vast product enhancements and a tighter integration that will drive upgrades from licensees. Brand new features (e.g. Dynamic and Cascading Parameter Generation) will also appeal to new audiences. Over 1 million new Business Intelligence licensees will be migrating to the Crystal Enterprise Reporting platform, as this is the first release of the software with the existing Business Objects (BO) products being integrated into the Crystal infrastructure. As Business Objects insiders, the authors bring unique and valuable real-world perspectives on implementations and uses of the Crystal Reports product. The book also includes content, tutorials and samples for reporting within the Microsoft Visual Studio.NET and J2EE development environments and also on top of the SAP Business Information Warehouse (BW) and the Peoplesoft platform. Advanced content on report distribution and integration into the secured managed reporting solution known as Business Objects Enterprise XI, is also now included in this definitive user guide with coverage on the new Web Services SDK.

This best-seller has been fully updated for Crystal Reports XI (extreme insight) -- the first jointly developed release of this leading report writing and analysis software since the acquisition of Crystal Decisions by Business Objects. Readers will learn to create visually appealing reports that communicate content effectively using helpful features such as charts, complex formulas, custom functions, sorting and grouping, Business Views, and more. Publishing and viewing reports on the Web is also explained in detail. NEW coverage includes: All the new user interface elements; New Dynamic/Cascading Parameter Fields; and, Using Crystal Reports with Business Objects Enterprise XI.

If you are a developer with a good command and knowledge of creating dashboards, but are not yet an advanced user of SAP BusinessObjects Dashboards, then this is the perfect book for you. Prerequisites include a good working knowledge of Microsoft Excel as well as knowledge of basic dashboard practices.
