More than ever, secondary curriculum requires greater flexibility and adaptability so young people learn the relevant knowledge and key skills they need for the evolving world of training and employment. This practical guide, both radical and progressive, makes a compelling argument for a secondary curriculum that addresses the needs and aspirations of all students. A balanced approach will help reform students' attitudes and behaviours and re-ignite their

curiosity and motivation for learning. Secondary Curriculum Transformed proposes an ambitious GCSE five-year journey inclusive of academic, creative and technical subjects, including T-Levels and mandatory key skills. To equip young people with this critical knowledge and key skills, the book: transforms the 11–19 curriculum so it does not disadvantage, marginalise or exclude young people; showcases excellent practice case studies from British and international contexts; provides curriculum models which schools can adapt to their own context; signposts educational research and listens to the 'student voice'; transforming them into leaders of their learning. Offering a comprehensive model for leaders and teachers to put the evidence into practice, this is essential reading for all education professionals. There are also additional templates, PowerPoints, useful links and other resources which can be downloaded from www.routledge.com/9780367900878. Offering a comprehensive model for leaders and teachers to put the evidence into practice, this is essential reading for all education professionals.

"We all know that the actual process of empirical research is a messy, complicated business that at best only approximates the models we impart to students. Research Confidential pulls back the curtain on this process, laying bare the sordid details of the research process, but doing so in a way that respects the ideals of social research and that provides useful lessons for young scholars. It should be required reading for our research methods courses." ---Michael X. Delli Carpini, Dean, Annenberg School for Communication, University of Pennsylvania "In this impressive volume, some of the brightest young lights in social research have taken us backstage to share what they learned from their innovative projects. Besides providing a wealth of help with methodological concerns, the book includes theoretical and career issues to consider when doing research. Anyone doing research should benefit from reading it." ---Caroline Hodges Persell, Professor of Sociology, New York University "Research Confidential complements existing methods literature by providing refreshingly honest accounts of key challenges and decision forks-in-the-research-road. Each chapter enlightens and entertains." ---Kirsten Foot, Associate Professor of Communication, University of Washington "A must-read for researchers embarking on new projects. Rather than the abstract descriptions of most methods textbooks, this volume provides rich accounts of the firsthand experiences of actual researchers. An invaluable resource of practical advice. Critically, it will make new researchers aware of the actual challenges that they are likely to face in their work." ---Christopher Winship, editor of Sociological Methods and Research and Professor of Sociology, Harvard University This collection of essays aims to fill a notable gap in the existing literature on research methods in the social sciences. While the methods literature is extensive, rarely do authors discuss the practical issues and challenges they routinely confront in the course of their research projects. As a result, editor Eszter Hargittai argues, each new cohort is forced to reinvent the wheel, making mistakes that previous generations have already confronted and resolved. Research Confidential seeks to address this failing by supplying new researchers with the kind of detailed practical information that can make or break a given project. Written in an informal, accessible, and engaging manner by a group of prominent young scholars, many of whom are involved in groundbreaking research in online contexts, this collection promises to be a valuable tool for graduate students and educators across the social sciences. Eszter Hargittai is Associate Professor of Communication Studies at Northwestern University and Fellow at the Berkman Center for Internet & Society at Harvard University. In 2011, Philip Zimbardo gave a TED Talk called "The Demise of Guys," which has been viewed by over 1.8 million people. A TED eBook called *The Demise of Guys: Why Guys Are Struggling and What We Can Do About It* followed. This is an expansion of that brief polemic based on Zimbardo's observations, research, and the survey that was completed by over 20,000 viewers of the original TED Talk. The premise here is that we are facing a not-so-brave new world; a world in which young men are getting left behind. In record numbers men are flaming out academically and failing socially and sexually with women. Philip G. Zimbardo and Nikita Coulombe say that an addiction to video games and online porn have created a generation of shy, socially awkward, emotionally removed, and risk-adverse young men who are unable (and unwilling) to navigate the complexities and risks inherent to real-life relationships, school, and employment. Taking a critical look at a problem that is tearing at families and societies everywhere, *Man, Interrupted* suggests that our young men are suffering from a new form of "arousal addiction," and introduce a bold new plan for getting them back on track. The concluding chapters offer a set of solutions that can be affected by different segments of society: What the government can do What schools can do What parents can do What men can do What women can do What the media can do Filled with telling anecdotes, results of fascinating research, perceptive analysis, and concrete suggestions for change. *Man Interrupted* is a book for our time. It is a book that informs, challenges, and ultimately inspires.
