This novel by Penn Jillette (from Penn & Teller) is more autobiography than fiction. There is a thin plot around the hero catching a serial killer, but the book is mostly rants from Penn which I enjoyed. The story is told from the point-of-view of a toy sock monkey which is a novel device. It is made even better at the end when we are told the sock monkey is a metaphor for god, i.e. an ...

Penn Jillette's New York Times bestselling account of his "extremely funny and somewhat profane journey to discovering a healthy lifestyle...that will motivate others to seek weight-loss solutions" (The Washington Post). More than three hundred and thirty pounds and saddled with a systolic blood pressure reading at dangerous heights, legendary magician Penn Jillette found himself at a crossroads. He needed a drastic lifestyle change if wanted to see his small children grow up. Enter Crazy Ray. A former NASA scientist and unconventional, passionate innovator, Ray Cronise changed Penn Jillette's life with his wild "potato diet." In Presto, Jillette takes us along on his journey from skepticism to the inspiring, life-changing momentum that transformed the magician's body and mind. He describes the process in hilarious detail, as he performs his Las Vegas show, takes meetings with Hollywood executives, hangs out with his celebrity friends and fellow eccentric performers, all while remaining a dedicated husband and father. Throughout, he weaves in his views on sex, religion, and pop culture, making his story a refreshing, genre-busting account. Outspoken, frank, and bitingly clever, Presto is an incisive, rollicking read. In the end, it is "undeniably inspiring" (Booklist).

The sock monkey belongs to a New York City police diver who discovers the body of an old lover in the murky waters of the Hudson River and sets off with her best friend to find her killer. Nobody ever reads this part of the book. Somebody at the publishing house explained to me that it's actually called the book flap. That sounded dirty, so I giggled for three hours. But it says in my contract that I have to write something over here in this tiny space, even though I don't think anyone will notice. Some people might open up to the middle of the book and start flipping through pages, but nobody will read this part. In fact, I'll bet anything that you're not reading this part now. And if it turns out that you are . . . well, the guy in the bookstore is probably staring at you, saying, "Stop reading that book!" I guess there's a reason bookstores are going out of business, left and right. Cheap fucks like you think it's okay to stand in the aisles and read to your heart's content. So for the sake of bookstores everywhere, buy this fucking book. I

After college, Rick Lax moved back into his parents' house. The closest thing he had to a job was eating his parents' food, sitting on his parents' couch, and watching *The Price is Right*. An amateur magician, he spent the rest of his time practicing card tricks and rope tricks. And though he could tie four different slipknots, the necktie posed some difficulties. Rick's father, a successful Michigan attorney, told Rick it was time to move out and enter the real world. Rick certainly wasn't going to get a job, so he went to law school instead. This is the story of Rick's journey from childhood to lawyerhood. In *Lawyer Boy*, Rick uses the skills he developed as a magician to succeed in class, and learns how to become a lawyer without becoming his father. His journey through law school was exhausting, exciting, and infuriating, and, the way he tells it, so funny it's criminal.
