General Science Guide for Competitive Exams - NDA/ CDS/ Railways/ SSC/ UPSC/ Defence is a unique book which has been designed as per the trend of questions asked in previous years question papers of various competitive exams (SSC, CDS, Railways, NDA etc). In nutshell the book consists of complete theory of Physics, Chemistry, Biology and Science & Technology with MCQ Exercise including past questions of various exams. • Concepts in this book have been simplified in a way so that a non- science student can also understand the concepts easily. • Keeping general competitions in mind some topics related with general knowledge about science have also been included e.g. chemistry in the modern world, chemistry and the environment, modern physics, biotechnology etc. • The book also covers Science and technology in the development of India and its future prospects in the field of research. The part deals with Energy, Nuclear Technology, Information Technology, Space research, Communication and Defence. • In the text some interesting facts, Science in action and important formulae are highlighted. • The book is empowered with a variety of questions (Simple MCQs, Statement Based MCQs, Match the column MCQs, Assertion-Reason MCQs) and thus more than 4000 questions are included in the book. Solutions are also provided in the book. • Past MCQs of last ten year questions of various competitive exams have also been included in the book.

Handbook of Media Economics provides valuable information on a unique field that has its own theories, evidence, and policies. Understanding the media is important for society, and while new technologies are altering the media, they are also affecting our understanding of their economics. Chapters span the large scope of media economics, simultaneously offering in-depth analysis of particular topics, including the economics of why media are important, how media work (including financing sources, institutional settings, and regulation), what determines media content (including media bias), and the effects of new technologies. The volumes provide a powerful introduction for those interested in starting research in media economics. Helps academic and non-academic economists understand recent rapid changes in theoretical and empirical advances, in structural empirical methods, and in the media industry's connection with the democratic process Presents the only detailed summary of media economics that emphasizes political economy, merger policy, and competition policy Pays special attention to the economic influences of the Internet, including developments in social media, user-generated content, and advertising, as well as the Internet's effects on newspapers, radio, and television
