p> Four unaccompanied migrant children come together along the arduous journey north through Mexico to the United States border in this ode to the power of hope and connection even in the face of uncertainty and fear. Every year, roughly 50,000 unaccompanied minors arrive at the US/Mexico border to present themselves for asylum or related visas. The majority of these children are non-Mexicans fleeing the systemic violence of Central America ' s "Northern Triangle": Honduras, El Salvador, and Guatemala. A Journey Toward Hope tells the story of Rodrigo, a 14-year-old escaping Honduran violence; Alessandra, a 10-year-old Guatemalan whose first language is Q'eqchi'; and the Salvadoran siblings Laura and Nando. Though their reasons for making the trip are different and the journey northward is perilous, the four children band together, finding strength in one another as they share the dreams of their past and the hopes for their future. A Journey Toward Hope is written in collaboration with Baylor University ' s Social Innovation Collaborative, with illustrations by the award-winning Susan Guevara (Chato's Kitchen, American Library Association Notable Book, New York Public Library's 100 Great Children ' s Books / 100 Years). It includes four pages of nonfiction back matter with additional information and resources created by the Baylor Social Innovation Collaborative.

When Miles's mother remarries, Miles decides to move to New Orleans to be with his father. But he and his father are very different—Miles's dad lives for jazz, while Miles's first love is football. Then Hurricane Katrina hits, and the two must seek refuge in the Superdome. What would normally be a dream come true for a football fan, this safe haven turns into a nightmare when the power fails and gangs take over. And when his father decides to rebel, Miles must make a choice that will alter their relationship—and their lives—forever.

He didn't say good-bye. He didn't leave a phone number. And he didn't plan on coming back - ever. In Wisconsin, Rico could blend in. His light hair and lighter skin wouldn't make him the "dark dude" or the punching bag for the whole neighborhood. The Midwest is the land of milk and honey, but for Rico Fuentes, it's really a last resort. Trading Harlem for Wisconsin, though, means giving up on a big part of his identity. And when Rico no longer has to prove that he's Latino, he almost stops being one. Except he can never have an ordinary white kid's life, because there are some things that can't be left behind, that can't be cut loose or forgotten. These are the things that will be with you forever.... These are the things that will follow you a thousand miles away. For anyone who loved *The Outsiders* -- and for anyone who's ever felt like one -- Pulitzer Prize-winning novelist Oscar Hijuelos brings to life a haunting choice and an unforgettable journey about identity, misidentity, and all that we take with us when we run away.

With a book for every part of speech, the complete *Meet the Parts of Speech* series includes story-based adventures combined with traditional instruction and usage examples for nouns, verbs, adjectives, adverbs, pronouns, conjunctions, prepositions, and interjections. In *Grammaropolis*, adverbs don't just modify verbs; adverbs are bossy. They tell the verbs where to go, when to leave, and how to get there. A pronoun doesn't just replace a noun; Roger the pronoun is a shady character who's always trying to trick Nelson the noun into giving up his spot. The *Meet the Parts of Speech* series uses the mechanics of character and story (plot, motivation, setting, etc.) to breathe life into what has traditionally been unengaging subject matter. Our story-based approach combines traditional instruction with original narrative content, which appeals to different learning styles, increases both engagement and retention, and encourages students to make a deeper connection with the parts of speech and punctuation marks. The complete series includes: *Nelson the Noun* Nelson takes a break from his stressful day job, leaving the Noun Office in the hands of Roger the pronoun. After discovering that vacation isn't what he'd hoped it would be, Nelson returns just in time to fix the confusion Roger has caused in his absence. *Vinny the Action Verb & Lucy the Linking Verb* Vinny and Lucy approach life differently. He's all action, while she's content to sit back and be. With their friend Jake the adjective in trouble, however, the two verbs must put aside their differences and work together to save the day. *Jake the Adjective* When Jake's nemesis pulls a prank and turns *Grammaropolis* into a grey, misshapen, tasteless town, Jake is forced to run around restoring everything--the colors, shapes, sizes, tastes, and more--to the way it was all meant to be. *Benny the Adverb* When his prized rock collection is stolen from the bank, Benny opens an investigation into how and when the theft took place and where the thief might have gone. *Roger the Pronoun* Feeling that he's destined for more than just renaming nouns, Roger opens up his own store next to Nelson's Nouns. But when Nelson goes missing, Roger realizes that for life to mean anything at all, every pronoun has to have an antecedent. *Connie the Conjunction* Nobody in all of *Grammaropolis* has more style than Connie; she simply knows how to put things together. After a bump on the head makes her give bad advice, she uses all the conjunctions at her disposal to set everything right again. *Lil' Pete the Preposition* When launching his model rocket in the park, Lil' Pete gets excited and forgets to add objects to his prepositional phrases. Without objects, the prepositions become adverbs, and chaos ensues as the rockets fly up, by, and around with no direction at all. *Izzy the Interjection* No matter whether the emotion is strong or mild, positive, negative, or somewhere in between, Izzy lives to express it. Loneliness can be a problem sometimes because she's not grammatically connected to the other words in the sentence, but when the time comes, she leaps at the chance to express her strongest emotion yet.

Izzy the Interjection No matter whether the emotion is strong or mild, positive, negative, or somewhere in between, Izzy lives to express it. Loneliness can be a problem sometimes because she's not grammatically connected to the other words in the sentence, but when the time comes, she leaps at the chance to express her strongest emotion yet. Izzy the Interjection is part of the nine-book *Meet the Parts of Speech* series starring the eight parts of speech, who are personified based on the roles they play in the sentence. From the shady pronoun always trying to take the noun's place to the motherly conjunction who just wants everyone to get along, the *Meet the Parts of Speech* series uses the mechanics of character and story (plot, motivation, setting, etc.) to breathe life into what has traditionally been unengaging subject matter.
