result is this startling book; An extraordinary record of 17 mind-bending conversations that took place over nearly a decade, reorienting the author's life, and giving the world an uncompromising introduction to a spiritual teaching destined to change human history.

Spoken Miracles is an anecdotal account of Martha Lucia Espinosa's 30-year-long search for answers from God, as well as the result of a request that has been made by thousands of readers of author Gary R. Renard's *The Disappearance of the Universe*, lovingly called "D.U." Near the end of D.U., one of Gary's teachers mentions that there were 365 quotations from the modern spiritual guide *A Course in Miracles (ACIM)* used in the D.U. book. We are told also that if these quotations were read on their own, they could

either be used as a thought for the day throughout the year, or they could simply be read like a book, in which case they would constitute a "refresher course" by Jesus, the Voice of A Course in Miracles. Many people requested that these quotations be put into book form, but it was a bigger job than most realized. Gary and his teachers had used more than 11,000 words from ACIM during the course of their discussions. Additionally, inspiration guides this book to be written in a way that it can stand on its own, to help introduce people to both D.U. and A Course in Miracles, as well as to inspire and entertain a little, so it includes a short story as a way to introduce readers to the basic concepts of these remarkable and miraculous books.

In this fascinating book, Gary Renard and his Ascended Master

Teachers, Arten and Pursah, teach you how to integrate advanced spiritual principles into your everyday life. Doing so leads beyond theory to an experience of the Divine and the undoing of the ego. Your progress will be accelerated to such a degree that, with continued practice, you can't help but stop the need to reincarnate . . . once and for all. Like Gary's first book, The Disappearance of the Universe, this work elaborates on the teachings of two spiritual classics, The Gospel of Thomas and A Course in Miracles. By focusing on a unique brand of quantum forgiveness, rather than the old-fashioned kind, and taking the understanding of the importance of thought up to a whole new level, your goal will become nothing less than to break the cycle of birth and death.

Take Me To Truth is the first book to present a practical guide to

the six stages involved in shedding our distorted ego perception. It explains why our search for real happiness has eluded us and how to perceive the Love for which we all yearn so deeply. As Gary Renard says in the Foreword... despite the thousands of things we may appear to have to choose from in this world, there are really only two things, and only one of them is real. The ego is not. Take me to Truth heralds the next crucial step in the pursuit of evolutionary consciousness.

Offers ecumenical meditations on love, perception, forgiveness, eternal life, and theoretical concepts in theology

contemplation, have you ever entertained the idea that the universe is but a dream? Which is to say, have you ever considered that the cause of the universe is that you dreamt it up? At first glance, the idea that you dreamt up the universe perhaps seems implausible. However, what if you really took that idea seriously and followed it to its logical conclusion? What would you discover? Well, this book answers that question. Using the unique form of a graphic novel, artist and writer Alexander Marchand takes you on an artistic, humorous, irreverent, and extremely informative romp through the advanced, nondualistic metaphysics of the contemporary spiritual document known as A Course in Miracles. In the end, you'll not only have a coherent picture of the true nature of the universe and existence, but you'll also have essential, practical knowledge of what you'll need to do to if you are ready to wake up."

Five personalities, whose lives impacted the consciousness of our planet forever, have crossed over to a greater understanding of life. Speaking through a gifted spiritual medium, they review their worldly lives and, now as our inspirational teachers, eagerly and lovingly share their experiences and wisdom. A subtle proof of their continued existence flows, for example, from John Lennon's message to Paul, his "brother," Princess Diana's concern for her sons, JFK, Jr.'s profession that he still loves to fly, Janis Joplin's
