This second edition synthesizes the emerging knowledge base on the diversity of stepfamilies, their inherent concerns, and why so relatively little is still known about them. Its extensive findings shed needed light on family arrangements relatively new to the literature (e.g., cohabitating stepparents), the effects of these relationships on different family members (e.g., stepsiblings, stepgrandparents), the experiences of gay and lesbian stepfamilies, and the stigma against non-nuclear families. Coverage reviews effective therapeutic and counseling interventions for emotional, familial, and social challenges of stepfamilies, as well as the merits of family education and self-help programs. The authors explore prevailing myths about marriage, divorce, and stepfamily life while expanding the limits of stepfamily research. Among the topics included:¶ The cultural context of stepfamilies.¶ Couple dynamics in stepfamilies.¶ Gay and lesbian couples in stepfamilies. ¶ The dynamics of stepparenting. ¶ Siblings, half-siblings, and stepsiblings. ¶ Effects of stepfamily living on children.¶ Clinical perspectives on stepfamily dynamics. For researchers and clinicians who work with families, it enriches the literature as it offers insights and guidelines for effective practice as well as possible avenues for future research.

If you could recreate any movie scene and cast yourself in the lead role, which would you choose? This chance remark made late one night over the counter of a North London video store brings together four very different characters with hilarious and dramatic consequences. United only by their love of film, Sadie, Lana, Liam and Tel join forces to recreate cinematic history, discovering along the way that friendship, trust and even love can spring from the most unlikely of sources. Once again, Siobhan Curham has mixed the elements of comedy with heart-wrenching tragedy, creating a warm and poignant tale that will cause laughter and tears with every turn of the page.

Part memoir and part social criticism, The Glass Closet addresses the issue of homophobia that still pervades corporations around the world and underscores the immense challenges faced by LGBT employees. In The Glass Closet, Lord John Browne, former CEO of BP, seeks to unsettle business leaders by exposing the culture of homophobia that remains rampant in corporations around the world, and which prevents employees from showing their authentic selves. Drawing on his own experiences, and those of prominent members of the LGBT community around the world, as well as insights from well-known business leaders and celebrities, Lord Browne illustrates why, despite the risks involved, self-disclosure is best for employees;and for the businesses that support them. Above all, The Glass Closet offers inspiration and support for those who too often worry that coming out will hinder their chances of professional success.
