The Road to Hell: The Ravaging Effects of Foreign Aid and International Charity, by Michael Maren, is a book about good intentions gone awry, in the realm of charitable assistance to Africa. The author argues that the international aid industry is a big business more concerned with winning its next big government contract than helping needy people. The focus of the book is Somalia.

Directed by Albert Pyun. With Michael Paré, Clare Kramer, Courtney Peldon, Deborah Van Valkenburgh. A soldier who has been fighting a long war is driven mad because he no longer believes in any purpose or righteous truth behind the killing.

Road to Hell (2008) - IMDb

The Road to Hell focuses primarily on the disingenuous efforts by Save The Children in Somalia in the early 1990s. While interesting and by no means flattering to Save, it must be understood that much of the information comes from a disillusioned employee.

The Road to Hell by Michael Maren - Goodreads

The Road to Hell, by Michael Maren, is a brutal indictment of the whole business of humanitarian intervention and the industry of aid. And for most of the participants it is just that: a business. Just as war is big business for defense contractors, the purveyors of food to starving children likewise gorge themselves at the public trough.

Albert Pyun directed this unofficial sequel to 1984's Streets Of Fire. It features Michael Paré reprising his role as Tom Cody (or just Cody as he is referred to in this) returning home to find the girl he left behind Ellen (played by Diane Lane in the original.) This was never officially released due to distribution issues and can only be found on a very limited DVD/Blu-ray release and can be streamed on Pyun's website.

Dear Michael Pearl, there's one thing I'd like to briefly mention: anything God loves, his enemy will twist and pervert. God gave sex to humanity as a gift. His first command was to be fruitful and multiply. That has nothing to do with strawberries or algebra. One way Satan twists that beautiful gift is through pornography.

A stunning personal narrative of best intentions gone awry, Michael Maren, at one time an aid worker and journalist in Somalia, writes of the failure of international charities. Michael Maren spent years in Africa, first as an aid worker, later as a journalist, where he witnessed at a harrowing series of wars, famines, and natural disasters. In this book, he claims that charities, such as CARE and Save the Children, are less concerned with relief than we think. Maren also attacks the United Nation's "humanitarian" missions are controlled by agribusinesses and infighting bureaucrats.

Argues that corrupt politicians use humanitarian aid to control the people it was intended to help

Takes a critical look at the international business of charity and relief efforts, exposing the bureaucratic inefficiency

In this definitive, up-to-the-minute account of the Hells Angels in Canada, two veteran journalists investigate why the recent imprisonment of feared biker leader, Maurice "Mom" Boucher, is too little, too late. By the spring of 2002, Boucher was safely in prison but the Hells Angels had grown to 37 chapters with close to 600 members across the country. They had taken over the drug trade and continued their rapid expansion into Ontario with a recent, high-profile enlistment -- or patchover -- of 168 members from other gangs. In Winnipeg, gang warfare turned ugly as the Hells muscled out the competition and firebombed a policeman's home. In Vancouver, they secured a stranglehold on smuggling in the all-important West Coast port. The Road to Hell is the story of how the Hells have taken over the Canadian crime scene: how politicians dithered while overburdened prosecutors burned out and lost major cases; how police brass squabbled while a handful of dedicated cops worked years to amass their evidence; how a few citizens stood up to the bikers and paid for that bravery with their lives. Murder plots, drug deals, money laundering and assassinations are brought to life through never-before-revealed police files, wiretaps and surveillance tapes. In gripping prose, the authors tell all about Boucher's war on the justice system; how he finally lost in Quebec, thanks in part to Danny Kane, a reluctant biker turned informer; but how across Canada the Hells have succeeded in building a national crime empire. The RCMP and then the police in Montreal would run Danny Kane as one of the most successful -- and most secretive -- agents ever to infiltrate organized crime. Kane would climb all the way to the top: from a lowly hangaround to a trusted confidante of the Quebec Nomads, the elite chapter led by the top Hells Angels lieutenants of Maurice "Mom" Boucher. And through his entire six-year-career as a spy, few people -- even inside the police -- would ever know about his dangerous double life. -- from The Road to Hell

The New York Times-bestselling author's "haunting, compassionate, and terrifyingly true" story of a man breaking free from his notorious past (Gregg Olson, New York Times-bestselling author of Starvation Heights). From 1926 to 1928, Gordon Stewart Northcott committed at least twenty murders on a chicken ranch outside of Los Angeles. He held his nephew, Sanford Clark, captive there from the age of thirteen to fifteen. Sanford would be Northcott's sole surviving victim. Forced by Northcott to take part in the murders, he carried tremendous guilt all his life. Yet despite his youth and the trauma he endured, Sanford helped gain justice for the dead and their families by testifying at the trial that led to Northcott's execution. These shocking events inspired Clint Eastwood's film The Changeling. But in The Road Out of Hell, acclaimed crime writer Anthony Flacco uses revelatory new accounts from Sanford's son to tell the complete, true story. Going beyond the film's narrative, Flacco recounts not only Sanford's nightmarish captivity, but also the inspiring life he led afterward. In dramatizing one of the darkest cases in American crime, Flacco constructs a riveting psychological drama about how Sanford was able to detoxify himself from the evil he'd encountered, offering the ultimately redemptive story of one man's remarkable ability to survive hell on earth and emerge intact.

Forrest Stuart gives us a new framework for understanding life in criminalized communities throughout America. The idea of community policing and of stop-and-frisk and broken windows is just part of the picture, which includes people on both sides of the issue of keeping order in Skid Row communities. Stuart s is a dramatic demonstration of how to understand the daily realities of America s most truly disadvantaged, an understanding that requires a sharp focus on the pervasive role and impact of the police. Policing zero tolerance models in particularis reshaping urban poverty and marginalization in 21st-century America. Stuart immersed himself for several years in the notorious homeless capital of America, which is to say, Skid Row in Los Angeles. It has the largest concentration of standing police forces anywhere in the United States. On their side, the police practice what Stuart calls therapeutic policing a form of virtual social work that is designed to cure the poor of individual pathologies. On the side of the homeless, Stuart finds a cunning set of techniques for evading police contact, which he dubs cop wisdom and which the poor use for intensifying resistance to roustings by the police. The police are tasked with day-to-day management of the growing numbers of citizens falling through the holes in the threadbare social safety net. We see daily patrol practices and routines that amount to hyper-policing in skid row districts. The continuous threat of punishment aims to steer homeless individuals away from self-destructive behaviors while providing incentives to drug recovery, employment, and life skills (in nearby meta-shelters). Minority upheavals now underway across America underscore the divide between cops and the urban poor (almost all of whom are black or Latino). Stuart joins Alice Goffman in revealing the underlying, and often tragic, dynamics.*

Entry #3 in the popular Hell's Gate series by 28 times New York Times best-selling author David Weber and Joelle Presby. The war between magically-gifted Arcana and psionically talented Sharona continues to rage. The dragon-borne Arcanan assault across five universes has been halted at Fort Salby by a desperate defense, but at atrocious cost. One of those costs was the life of Crown Prince Janaki, heir to the newly created Sharonian Empire, who went knowingly to his death in the tradition expected of the House of Calirath. And another price will be the sacrifice of his younger sister, Grand Imperial Princess Andrin, now heir of Sharona, for the accords creating the Sharonian Empire require the marriage of the heir to the Crown to wed a Uromathian prince. Andrin bears her family's Talent, the Glimpses, which show flashes of events yet to come. She knows the accords must be secured . . . and like her brother, she will pay any price, make any sacrifice for her duty to her people. Sharona's soldiers dig in, facing the Arcanans in a tense standoff which cannot last long. Both sides continue rushing reinforcements towards the front, but how do armies fight wars when they can reach one another only through the portals which join the universes? And far, far behind the front, carried by dragons, a young Voice name Shaylar and her husband Jathtar hurtle deeper and deeper into Arcanan captivity, their only protection the fierce personal honor of the Andaran officer whose men massacred all of their companions in the horrendous misunderstanding which began the entire conflict. Men and women of honor on both sides must grapple with the terrible costs and deadly secrets of the spreading cataclysm, and in the shadows, those who will balk at neither treason nor murder drive the conspiracies which pour fuel into the furnace. The stakes are high and the pieces are in motion, but there are factors known not even to the conspirators and not even a Callirath can glimpse the final outcome. NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food--and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.
