Aidan and Meg Falconers' parents are facing life in prison unless Aidan and Meg can prove their innocence, but first they must escape from a juvenile detention center and elude both the authorities and a sinister attacker who has his own reason to stop th

In the second decade of the 20th century, major world events resonate even on secluded Stone Mountain where Bessie Elliott lives with her husband Fletcher. There's a great war, one that takes away many young men, including Bessie's kin, some never to return. Bessie's role of healer intensifies as she treats those suffering from the Spanish flu and tries to keep it from spreading further on her mountain. She defends a young woman who's in the middle of a controversy that threatens to tear her community apart. And she finds herself involved in the suffragette movement as the women of North Carolina fight to gain their rights under the constitution. Then when one of her family members makes an appalling decision, one that has the potential to damage a child, Bessie impulsively steps forward to right the wrong.

Beneath an alien sea! Flung to an alien ocean world, John Bandicut and his companions find themselves plunged into the deep-sea realm of the Neri. What will they find in the Neri's fabled undersea city, or in the terrifying object of the deep abyss? Book 3 of The Chaos Chronicles continues the hard-SF saga inspired by chaos theory—with an all-new Afterword by the Nebula-nominated author of Eternity's End. Print publication by Tor Books. REVIEWS: "Another splendid adventure, with intriguing puzzles, first-rate problem-solving, and an impressive array of alien characters, motives, and methods." —Kirkus Reviews "An absolutely terrific book. Carver is heir apparent to Larry Niven as the king of hard SF; his stories revolve around ideas that are every bit as big as Niven's, and his aliens are every bit as fascinating. Chaos theory says outcomes are unpredictable, but here's one that's a sure thing: if you start reading The Infinite Sea, you won't be able to put it down until the very last page." —Robert J. Sawyer Carver scores again. Gives us mystery, high adventure, and the sense of wonder in the grand old tradition. —Jack McDevitt, author of Seeker and Chindi

This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.

"Beginning 2D iOS game development with Swift"---Page 1 of cover.

Very comprehensive text for physiology (algae) and/or limnology (freshwater biology) courses at the junior/senior/grad level.

This official training guide from Adobe will teach readers all they need to know to create rich interactive experiences with Flash Catalyst CS5, Adobe's exciting new interaction design tool. Flash Catalyst CS5 lets designers create real Adobe Flash and Adobe AIR applications without having to learn ActionScript. Using step-by-step instructions in projects that progressively build skills, readers of this Classroom in a Book will learn how to prepare and import artwork from applications such as Adobe Photoshop and Fireworks into Catalyst, and then add interactive functionality in a familiar interface and with tools that are intuitive to use. Readers will learn how libraries let them organize and reuse assets, how to use layers to view and control objects, how to work with pages and states to create interactive components, how to add transitions and action sequences, and how to work with video and sound. Readers will also learn to incorporate Flash files from other applications and use Flash Builder to extend their projects' functionality. The companion CD provides users with all the sample files they need to complete all the projects. "The Classroom in a Book series is by far the best training material on the market. Everything you need to master the software is included: clear explanations of each lesson, step-by-step instructions, and the project files for the students." —Barbara Binder, Adobe Certified Instructor, Rocky Mountain Training Classroom in a Book®, the best-selling series of hands-on software training workbooks, helps you learn the features of Adobe software quickly and easily. Classroom in a Book offers what no other book or training program does—an official training series from Adobe Systems Incorporated, developed with the support of Adobe product experts. Note from the publisher: FREE Adobe Flash Catalyst CS5.5 updates are available for this title. Simply register your product at www.peachpit.com/register and you will receive the updates when they become available.
