Our market-based, profit-driven health care system in the United States has put necessary care increasingly beyond the reach of ordinary Americans. Primary health care, the fundamental foundation of all high-performing health care systems in the world, is a critical but ignored casualty of the current system. Unfortunately, primary care is often poorly understood, even within the health professions. This book describes what has become a crisis in primary care, defines its central role, analyzes the reasons for its decline, and assesses its impacts on patients and families. A constructive approach is presented to rebuild and transform U.S. primary care with the urgent goal to address the nation's problems of access, cost, quality and equity of health care for all Americans.

When Abby's music career takes off and she moves to Chicago, Jarvis gets the boot--sort of. Abby still loves him, but his penchant for faded sweaters and meatball subs just doesn't fit into her new, sophisticated world of designer gowns and concert halls. They're in different leagues and Abby makes no qualms of reminding him of it whenever she deigns to visit him. When the couple is involved in a near-fatal car crash, they are broken, stripped, and broken again both stumbling through a journey of healing and self-discovery as they struggle to accept the merciful hand of the only One who can help them up after a fall.
