The complete text of the New International version of the Bible is accompanied by a table of weights and measures, and a dictionary-concordance.

Master the complexities of the world's bestselling 2D and 3D software with Introduction to AutoCAD 2017. Ideally suited to new users of AutoCAD, this book will be a useful resource for drawing modules in both vocational and introductory undergraduate courses in engineering and construction. A comprehensive, step-by-step introduction to the latest release of AutoCAD. Covering all the basic principles and acting as an introduction to 2D drawing, it also contains extensive coverage of all 3D topics, including 3D solid modelling and rendering. Written by a member of the Autodesk Developer Network. Hundreds of colour pictures, screenshots and diagrams illustrate every stage of the design process. Worked examples and exercises provide plenty of practice material to build proficiency with the software. Further education students will find this an invaluable textbook for City & Guilds AutoCAD qualifications as well as the relevant Computer Aided Drawing units of BTEC National Engineering, Higher National Engineering and Construction courses from Edexcel. Students enrolled in Foundation Degree courses containing CAD modules will also find this a very useful reference and learning aid.

What if the characters in a vampire novel left their world - and came into yours? Amy is in love with someone who doesn't exist: Alexander Banks, the dashing hero in a popular series of vampire novels. Then one night, Amy meets a boy who bears an eerie resemblance to Alexander. In fact, he is Alexander, who has escaped from the pages of the book and is in hot pursuit of a wicked vampire named Vigo. Together, Amy and Alexander set out to track Vigo and learn how and why Alexander crossed over. But when she and Alexander begin to fall for each other, Amy wonders if she even wants him to ever return to the realm of fiction.

This book covers the concept of the Semantic Web—what it is, the components that comprise it, including Linked Data, and the various ways that libraries are engaged in contributing to its development in making library resources and services ever more accessible to end-users.

Provides an analysis of the issues present in Egyptian society, including economic stagnation, police brutality, and poverty that led to the overthrow of the Mubarak government, and reveals why the revolt was destined to happen.

In this riveting biography of Elizabeth Seton critically acclaimed and bestselling author Joan Barthel tells the mesmerizing story of a woman whose life featured wealth and poverty, passion and sorrow, love and loss. Elizabeth was born into a prominent New York City family in 1774. Her father was the chief health officer for the Port of New York and she lived down the block from Alexander Hamilton. She danced at George Washington's sixty-fifth Birthday Ball wearing cream slippers, monogrammed. Catholicism was illegal in New York when she was born; Catholic priests seen in the city were arrested, sometimes hung. When Elizabeth and her wealthy husband Will sailed to Italy in a doomed attempt to cure his tuberculosis, she and her family were quarantined in a damp dungeon. And when Elizabeth later became a Catholic, she was so scorned that people talked of burning down her house. American Saint is the inspiring story of a brave woman who forged the way for the other women who followed and who made a name for herself in a world entirely ruled by men. Elizabeth resisted male clerical control of her religious order, as nuns are doing today, and the publication of her story could not be more timely. Maya Angelou has contributed the foreword.

This book is about how we started with nothing and retired financially free in less than ten years. Find out how you can do the same. If you do not plan on working hard all of your life...this book is for you. Why not Retire Young and Retire Rich?

The lines are blurred between what is real and what isn't, the darkness that was once a place I feared was now a place of safety. If I stayed in the darkness, the hellish reality of what was truly happening no longer seemed real. But I was about to be pulled from beneath the consuming blanket of dark shadows, and plunged into the murky depths of my past. I was about to be shown my demons and all their evil sides, all of their pain and grief. I could only hope I survive it. What happens when the world you once knew crumbles and falls at your feet? Who will find me? Who will save me from my demons? My dark prince or my white knight... And will I find myself in the process?

The biology, biotechnology, chemistry, pharmacy and chemical engineering students at various universtiy and engineering institutions are required to take the Biochemical Engineering course either as an elective or compulsory subject. This book is written keeping in mind the need for a text book on afore subject for students from both engineering and biology backgrounds. The main feature of this book is that it contains the solved problems, which help the students to understand the subject better. The book is divided into three sections: Enzyme mediated bioprocess, whole cell mediated bioprocess and the engineering principle in bioprocess. Dr. Rajiv Dutta is Professor in Biotechnology and Director, Amity Institute of Biotechnology, Lucknow. He earned his M. Tech. in Biotechnology and Engineering from the Department of Chemical Engineering, IIT, Kharagpur and Ph.D. in Bioelectronics from BITS, Pilani. He has taught Biochemical Engineering and Biophysics to B.E., M.E. and M.Sc. level student carried out advanced research in the area of Ion channels at the Department of Botany at Oklahoma State University, Stillwater and Department of Biological Sciences at Purdue University, West Lafayette, IN. He also holds the position of Nanion Technologies Adjunct Research Professor at Research Triangle Institute, RTP, NC. He had received various awards including JCI Outstanding Young Person of India and ISBEM Dr. Ramesh Gulrajani Memorial Award 2006 for outstanding research in electro physiology.
