"WE LIVE INSIDE YOU is fucking terrific. Jeremy Robert Johnson is dancing to a way different drummer. He loves language, he loves the edge, and he loves us people. We are within you, and we are growing. Watching. Waiting for your empires to fall. It won't be long now. WE LIVE INSIDE YOU

Meth-heads, man-made monsters, and murderous Neo-Nazis. Blessed out club kids dying at the speed of sound. The un-dead and the very soon-to-be-dead. They're all here, trying to claw their way free. From the radioactive streets of a war-scarred future, where the nuclear bombs have become self-aware, to the fallow fields of Nebraska where the kids are mainlining lightning bugs, this is a world both alien and intensely human. This is a place where self-discovery involves scalpels and horse tranquilizers; where the doctors are more doped-up than the patients; where obsessive-compulsive acid-freaks have unlocked the gateway to God and can't close the door. This is not a safe place. You can turn back now, or you can head straight into the heart of... the Angel Dust Apocalypse

The year 's most brutal, cinematic thrill ride is also one of its most critically acclaimed novels. Dazed and Confused meets 28 Days Later in this " wickedly entertaining, " (Kirkus Reviews) " volcano of a book " (Nathan Ballingrud, author of Wounds) as a lonely young woman teams up with a group of fellow outcasts to survive the night in a town overcome by a science experiment gone wrong. A Best Book of the Month for Den of Geek, Omnivorous, Mystery & Suspense, and Tor. A Goodreads ' 2020 Readers Choice Nominee for Best Horror, and one of the Best Books of 2020 for The Lineup, Booked, and Unsettling Reads. Turner Falls is a small tourist town nestled in the hills of central Oregon. When a terrifying outbreak rapidly develops, this idyllic town becomes the epicenter of an epidemic of violence. The Loop is a " wild and wonderfully scary novel " (Richard Chizmar, author of Gwendy 's Magic Feather) that offers a " hilarious and horrifying " (Brian Keene, author of The Rising) look at what one team of misfits can accomplish as they fight to live through the night. " [A] harrowing thrill ride of the first order and an uncompromising page-turner, easily securing its spot as one of the best novels of 2020. " —Rue Morgue (featured " Dante 's Pick " Review) " Like the best of Crichton or Bentley, it is a great beach read, but it is infused with the neon blood of a brave new writer... [A] kind of literary roller coaster. It will take you to thrilling highs and terrifying lows..." —Los Angeles Review of Books " The Loop is the gore-soaked, anxiety-inducing, diabolically funny Richard Linklater/David Cronenberg mashup you never knew you wanted but can 't—or at least shouldn 't—live without. " —The Big Thrill " Unputdownable...Fans of The Twilight Zone, The X-Files, and Stranger Things will be especially thrilled. " —Publishers Weekly (starred review) " A satisfyingly dark satire of, well, everything...[a] heart-pounding and deeply unsettling tale. " —Booklist " The Loop is a remarkably propulsive novel, cinematic in the best way, with perfectly tuned tension and excellent character choices...a headlong, straightforward pleasure. " —Locus " The Loop is the Cronenberg film we never got. " —Nathan Ballingrud, author of North American Lake Monsters and Wounds

"You can survive a nuclear blast. All you need is some luck, and maybe a customized business suit coated in cockroaches. It could work. At least that's what Dean believed before the bombs actually dropped and his suit led him to murder a very important man at the foot of a blackened obelisk. Now D.C. is looking awfully empty. Life on Earth is pretty much coming to an end. All of which leaves Dean with a single question-"What now?" The answer to that question will take him on an uncanny voyage across a newly nuclear America where he must confront the problems associated with loneliness, radiation, love, and an ever-evolving cockroach suit with a mind of its own. Dean's bizarre adventures mark the last chronicle of human existence, the final entries in our species' own..."—Publisher description

For more than a decade, Jeremy Robert Johnson has been bubbling under the surface of both literary and genre fiction. His short stories present a brilliantly dark and audaciously weird realm where cosmic nightmares collide with all-too-human characters and apocalypses of all shapes and sizes loom ominously. In "Persistence Hunting," a lonely distance runner is seduced into a brutal life of crime with an ever-narrowing path for escape. In "When Susurrus Stirr," an unlucky pacifist must stop a horrifying parasite from turning his body into a sentient hive. Running through all of Johnson's work is a hallucinatory vision and deeply-felt empathy, earning the author a reputation as one of today's most daring and thrilling writers. Featuring the best of his independently-published short fiction, as well as an exclusive, never-before-published novella "The Steep of Judges"--where a father's fight against the denizens of a drug den becomes a mind-bending suburban nightmare--Entropy in Bloom is a perfect compendium for avid fans and an ideal entry point for adventurous readers seeking the humor, heartbreak, and terror of JR's strange new worlds.

TLC's Counting On breakout stars Jeremy and Jinger Vuolo share their love story, a behind-the-scenes glimpse into their lives together, and the hope that drives them every day. Jinger Vuolo did not have what you'd call a typical childhood. The sixth child of Jim Bob and Michelle Dugger's nineteen, she grew up with the bright lights of television crews in her home, filming the hit TLC show 19 Kids and Counting. Jinger has always been a fan favorite, and now she and her husband Jeremy are the breakout stars of the show's sequel, Counting On. In The Hope We Hold, Jeremy and Jinger Vuolo share the highs and lows of their love story. They open up about the early days of getting to know one another, their long-distance relationship, and the many sleepless nights of their time as new parents. But throughout all their stories, just below the surface, weaving together every triumph and trial of their lives, is the silver thread of hope. Though they don't pretend to have all the answers, they can promise that there is hope in Christ for every person in every walk of life. There is an inheritance of glory, a life richer than we can imagine, if we only walk with Him.

" With The Insides, Jeremy P. Bushnell doesn 't so much mash genres together as slice them apart to find the filets. It 's a literary urban fantasy with sharp things to say about the way we live now, darkened by a touch of Scandinavian thriller: rich and urgent and weird, a novel that defies categorization but demands to be consumed. " —Robin Sloan, author of Mr. Penumbra's 24-Hour Bookstore " The Insides begins with all the freewheeling magic and humor of The Weirdness, then ups the ante with danger, suspense, and rich emotional resonance. If you love fierce, witchy leading ladies, facing down evil, and traveling to strange realms that will explain your life before they haunt you forever, this is the book for you. " —Alyssa Harad, author of Coming to My Senses
Ollie Krueger 's days as a punk kid practicing street magic are mostly behind her. Now she 's a butcher at Carnegie, a high-end restaurant offering deconstructed takes on meat. On busy nights Ollie and her partner, Guychardson, race to see who can produce the most finished cuts. Ollie 's the better butcher, but somehow Guychardson always wins ... and Ollie thinks maybe it 's because the mysterious knife he uses is magic. Before she knows it, Ollie 's interest in the knife has thrown her square in the path of a dangerous ex-marine called " Pig " and his hired psychic, Maja, who are on the hunt for the knife too—who want it so badly, in fact, that they might kill for it. Now, magic is back in Ollie 's life and she 's being chased through New York City, with the fabric of space-time tattering around her and weird inter-dimensional worms squirming their way into her kitchen. And before it's all over she 's going to need to face up to the Possible Consequences of some bad decisions; to look at the uncomfortable truths that she stuffed away long ago, deep down ... inside. ...

You weren't always an agent of the apocalypse. You used to be a banker. Who knew that too much coffee and a few bad decisions would lead to the end of the world? Life as a corporate drone was killing S.P. Doyle, so he decided to bring down the whole corrupt system from the inside. But after discovering something monstrous in the bank's files, he was framed for murder and trapped inside a conspiracy beyond reason. Now Doyle's doing his best to survive against a nightmare cabal of crooked conglomerates, DNA-doped mutants, drug-addled freak show celebs, experimental surgeons, depraved doomsday cults, and the ultra-bad mojo of a full-blown Hexadrine habit. Joined by his pet turtle Deckard, and Dara, a beautiful missionary with a murderous past, Doyle must find a way to save humankind and fight the terrible truth at the heart of... SKULLCRACK CITY

In one month Jeremy Fink will turn thirteen. But does he have what it takes to be a teenager? He collects mutant candy, he won't venture more than four blocks from his apartment if he can help it, and he definitely doesn't like surprises. On the other hand, his best friend, Lizzy, isn't afraid of anything, even if that might get her into trouble now and then. Jeremy's summer takes an unexpected turn when a mysterious wooden box arrives in the mail. According to the writing on the box, it holds the meaning of life! Jeremy is supposed to open it on his thirteenth birthday. The problem is, the keys are missing, and the box is made so that only the keys will open it without destroying what's inside. Jeremy and Lizzy set off to find the keys, but when one of their efforts goes very wrong, Jeremy starts to lose hope that he'll ever be able to open the box. But he soon discovers that when you're meeting people named Oswald Oswald and using a private limo to deliver unusual objects to strangers all over the city, there might be other ways of finding out the meaning of life. Lively characters, surprising twists, and thought-provoking ideas make Wendy Mass's latest novel an unforgettable read.

Jeremy Heere is your average high school dork. Day after day, he stares at beautiful Christine, the girl he can never have, and dryly notes the small humiliations that come his way. Until the day he learns about the "squip." A pill-sized supercomputer that you swallow, the squip is guaranteed to bring you whatever you most desire in life. By instructing him on everything from what to wear, to how to talk and walk, the squip transforms Jeremy from Supergeek to superchic.
