0133901483/ISBN-13:9780133901481 and ISBN-10: 0321972023/ISBN-13: 9780321972026. For non-majors introductory chemistry courses. Make chemistry relatable to all students. Chemistry for Changing Times has defined the liberal arts chemistry course and remains the most visually appealing and readable introduction to the subject.

The Fourteenth Edition increases its focus on environmental and other relatable issues with revised green chemistry essays throughout and new Chemistry at Home experiments, both in the text and in MasteringChemistry. Abundant applications and examples fill each chapter and enable students of varied majors to relate to the content more readily. Updated material throughout reflects the latest scientific developments in the field demonstrating the relevance of chemistry to all students. Also available with MasteringChemistry. MasteringChemistry® from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content.

Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions.

Times remains the most visually appealing and readable introduction on the subject. The Thirteenth Edition increases its focus on student engagement – with revised “Have You Ever Wondered?” questions, new Learning Objectives in each chapter linked to end of chapter problems, and new Green Chemistry content, closely integrated with the text. Abundant applications and examples fill each chapter, and material is updated throughout to mirror the latest scientific developments in a fast-changing world. Compelling chapter opening photos, a focus on Green Chemistry, and the “It DOES Matter” features highlight current events and enable students to relate to the book more readily. This package contains: Chemistry for Changing Times, Thirteenth Edition

For non-majors introductory chemistry courses. Engage students with contemporary and relevant applications of chemistry Chemistry for Changing Times has defined the liberal arts course and remains the most visually appealing and readable introduction for the subject. Abundant applications and examples fill each chapter and enable students of varied majors to readily relate to chemistry. For the 15th Edition, author Terry McCreary and new coauthors Marilyn Duerst and Rill Ann Reuter, introduce new examples and a consistent model for problem solving. They guide students through the problem-solving process, asking them to apply the models and combine them with previously learned concepts. New problem types engage and challenge students to develop skills they will use in their everyday lives, including developing scientific literacy, analyzing graphs and data, recognizing fake vs. real news, and creating reports. New relevant, up-to-date applications focus on health & wellness and the environment, helping non-science and allied-health majors taking the course to see the connections between the course materials and their everyday lives. Also available with
