Finite Mathematics For Business, Economics, Life Sciences ...

The ninth edition of Finite Mathematics for Business, Economics, Life Sciences, and Social Sciences is designed for a one-term course in finite mathematics and for students who have had 1 1/2 - 2 years of high school algebra or the equivalent. The choice and independence of

topics make the text readily adaptable to a variety of courses (see the Chapter Dependency Chart on page xi).

For one-semester courses in Finite Mathematics. Built-in guidance that helps students "get the idea." Finite Mathematics for Business, Economics, Life Sciences, and Social Sciences , 14th Edition offers more built-in guidance than any other text available - with special emphasis on prerequisites skills - and a host of student-friendly features to help students catch up or learn on their own. The text's emphasis on helping students "get the idea" is enhanced in the new edition by a design refresh, updated data and applications, and a robust MyLab(tm) Math course. Also available with MyLab Math By combining trusted author content with digital tools and a flexible platform, MyLab Math personalizes the learning experience and improves results for each student. NOTE: You are purchasing a standalone product; MyLab(tm) Math does not come packaged with this content. Students, if interested in purchasing this title with MyLab Math, ask your instructor to confirm the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the loose-leaf version of the text and MyLab Math, search for: 0134862627 / 9780134862620 Finite Mathematics for Business, Economics, Life Sciences, and Social Sciences Plus MyLab Math with Pearson eText -- Title-Specific Access Card Package, 14/e Package consists of: 0134675983 / 9780134675985 Finite Mathematics for Business, Economics, Life Sciences, and Social Sciences 0134880412 / 9780134880419 MyLab Math with Pearson eText -- Standalone Access Card - for Finite Mathematics for Business, Economics, Life Sciences, and Social Sciences

For 1-semester or 1-2 quarter courses covering finite mathematics for students in business, economics, social sciences, or life sciences. Barnett/Ziegler/Byleen is designed to help students help themselves succeed in the course. This text offers more built-in guidance than any other on the market-with special emphasis on prerequisites skills- and a host of student-friendly features to help students catch up or learn on their own. This program provides a better teaching and learning experience. Here's how: *Personalized learning with MyMathLab(R): the accompanying MyMathLab course provides online homework and learning tools that help students help themselves succeed. *More than 4,200 exercises in the text help you craft the perfect assignments for your students, with plenty of support for prerequisite skills. *Built-in guidance helps students help themselves learn course content. *Flexible coverage allows instructors to use this text in a way that suits their syllabus and teaching style.

This accessible text is designed to help readers help themselves to

With the content organized into three parts: (1) A Library of Elementary Functions (Chapters 1–2), (2) Finite Mathematics (Chapters 3–9), and (3) Calculus (Chapters 10–15). The book's overall approach, refined by the authors' experience with large sections of college freshmen, addresses the challenges of learning when readers' prerequisite knowledge varies greatly. Reader-friendly features such as Matched Problems, Explore & Discuss questions, and Conceptual Insights, together with the motivating and ample applications, make this text a popular choice for today's students and instructors.

&> Note: You are purchasing a standalone product; MyMathLab does not come packaged with this content. If you would like to purchase both the physical text and MyMathLab, search for ISBN-10: 0321947622 /ISBN-13:9780321947628. That package includes ISBN-10: 0321431308 /ISBN-13: 9780321431301, ISBN-10: 0321654064/ISBN-13:978032165406, and ISBN-10: 0321945522/ISBN-13: 9780321945525. MyMathLab is not a self-paced technology and should only be purchased when required by an instructor. Barnett/Ziegler/Byleen is designed to help students help themselves succeed in the course. This text offers more built-in guidance than any other on the market—with special emphasis on prerequisites skills—and a host of student-friendly features to help students catch up or learn on their own.

Applied Finite Mathematics, Second Edition presents the fundamentals of finite mathematics in a style tailored for beginners, but at the same time covers the subject matter in sufficient depth so that the student can see a rich variety of realistic and relevant applications. Some applications of probability, game theory, and Markov chains are given. Comprised of 10 chapters, this book begins with an introduction to set theory, followed by a discussion on Cartesian coordinate systems and graphs. Subsequent chapters focus on linear programming from a geometric and algebraic point of view; matrices, the solution of linear systems, and applications; the simplex method for solving linear programming problems; and probability and probability models for finite sample spaces as well as permutations, combinations, and counting methods. Basic concepts in statistics are also considered, along with the mathematics of finance. The final chapter is devoted to computers and programming languages such as BASIC. This monograph is intended for students and instructors of applied mathematics.
