Critical care medicine is one of the fastest-growing areas of practice, and Critical Care Study Guide, 1st ed., was the first reference to combine both concise text and reviews with questions. The second edition expands and improves coverage, including comprehensive studies in airway management, cardioversion and defibrillation, medical ethics, and the use of blood products. The unique combination of text with questions and answers makes this a crucial reference for all practitioners and residents who see patients in the Intensive Care Unit, and those planning to sit for medical boards.

AACN Scope and Standards for Acute Care Nurse Practitioner Practice describes and measures the expected level of practice and professional performance for acute care nurse practitioners (ACNPs),

incorporating advances in scientific knowledge, clinical practice, technology and other changes in the dynamic healthcare environment. It offers a practical tool for students, educators and advanced practice nurses caring for high acuity or critically ill patients and their families in every setting.
