Intuitive skills are not required as the system is based on price movement properties and market behavior. For short term trading it is purely a technical system, regardless of news noise and what occurs in the macro markets. A simple, focused, easy to follow to become a proficient strategy-oriented trader.

### Trading Course - Intuitive Trading Institute

Do you believe that intuition (or trading intuition specifically) only comes with many years of experience?. It's a commonly held belief for sure. But the truth is you make intuitive decisions every day in your daily life, sometimes using only minutes or even hours! worth of !past experiences! and memories to call upon. It's why you're good at your job, right?

Cultivate the skills necessary to follow your business intuitions No matter how much background and training a trader or investor has, intuition remains the key personal asset to attaining financial success. Success depends on refining your intuition to a level that allows you to take the next step with unshakable confidence. But bringing yourself to this level is a daunting challenge--one that often requires you to override the logic of your acquired knowledge. With insights from industry success stories, exercises, and analysis from psychologists and psychiatrists, The Intuitive Trader shows traders and investors how to capitalize on their powerful intuitive skills so that they can take their trading to a new level. \* Interviews with preeminent psychologists and psychiatrists about developing intuition \* Extensive exercises that show the reader how to use intuition to enhance trading performance \* Words of wisdom from successful traders and investors, including Tony Saliba, Linda Raschake, Paul Tudor Jones, Jimmy Rodgers, and George Soros ROBERT KOPPEL (Chicago, Illinois) is President of Future Skills, a Chicago-based consulting firm that works with individual traders, CTA's and brokerage firms. A former member of the Chicago Mercantile Exchange, he is a partner in Skyline Trading, a clearing firm backed by Daiwa Securities. Koppel is the author of The Inner Game of Trading and The Outer Game of Trading, and he frequently lectures on the psychology of sound investing.

EARN SERIOUS TRADING PROFITS BY USING YOUR WHOLE BRAIN! Legendary traders like Jesse Livermore, George Soros, Richard Dennis, and Steven Cohen use their full range of powers that encompass both instinct and analysis. That's how they made their fortunes--and that's how you can, too. In Trading from Your Gut, Curtis Faith, renowned trader and author of the global bestseller Way of the Turtle, reveals why human intuition is an amazingly powerful trading tool, capable of processing thousands of inputs almost instantaneously. Faith teaches you how to harness, sharpen, train, and trust your instincts and to trade smarter with your whole mind. Just as important, you'll learn when not to trust your gut!and how to complement your intuition with systematic analysis. You've got a left brain: analytical and rational. You've got a right brain: intuitive and holistic. Use them both to make better trades, and more money! !Whole Mind! trading: the best of discretionary and system approaches How winning traders use analysis and disciplined intuition together How to profit from other traders! !Wrong Brain Thinking! Understand other traders, without acting like them How to provide a firm intellectual framework for your trades What successful traders have discovered about the market's structure and laws The unique value of intuition in swing trading Use your intuition to trade patterns that computer technology can't recognize

"This book provides a unique insight into the thought process involved in successful trading. Anyone considering trading or already involved in trading can benefit from reading this book." - Bruce Johnson, Pres. Packers Trading Co., Inc.

"Successful Wall Street fund manager retired at age 35 guides investors to use intuitive and creative right-brained processes to complement traditional left-brain financial analysis. Author describes his principles based on spiritual insights and provides professional anecdotes to support his theories"--Provided by publisher.

Behavioral finance expert and bestselling author Robert Koppel shows traders and investors how to invest your money rationally, even in an irrational world "Investing," according to Robert Koppel, "Involves far more than specific analytical and strategic skills. It requires the development of habits, thought patterns and creative attitudes that influence the way to think and act in the market." In Investing and the Irrational Mind, Koppel, author of the classic bestseller,The Inner Game of Trading, uses the latest advancements in behavioral finance and neuroeconomics to help you gain these habits, as well as the deep understanding of market risk factors necessary to successful portfolio building. Armed with 30 years' experience as an analyst, and fund manager, and interviews with top traders, behavioral economists, risk managers and neuroscientists, Koppel lets you build a personal arsenal of risk management skills ("quantitative architecture") necessary for investors at any level to develop a focused, disciplined, confident, and profitable approach to investing. Filled with surprising insights into human behavior, and rock-solid financial advice, this is the guide you need to invest in today's markets.

How to build a framework for forecasting interest rate market movements With trillions of dollars worth of trades conducted every year in everything from U.S. Treasury bonds to mortgage-backed securities, the U.S. interest rate market is one of the largest fixed income markets in the world. Interest Rate Markets: A Practical Approach to Fixed Income details the typical quantitative tools used to analyze rates markets; the range of fixed income products on the cash side; interest rate movements; and, the derivatives side of the business. Emphasizes the importance of hedging and quantitatively managing risks inherent in interest rate trades Details the common trades which can be used by investors to take views on interest rates in an efficient manner, the methods used to accurately set up these trades, as well as common pitfalls and risks\*providing examples from previous market stress events such as 2008 Includes exclusive access to the Interest Rate Markets Web site which includes commonly used calculations and trade construction methods Interest Rate Markets helps readers to understand the structural nature of the rates markets and to develop a framework for thinking about these markets intuitively, rather than focusing on mathematical models

This book can be described as 1/3 trading psychology, 1/3 risk management and 1/3 technical analysis. My early days of trading were filled with frustration, confusion and constant losses. After making some of the same mistakes over and over again I being to adapt and learned a few tricks to minimize my losses. As I began passing these tricks on to my fellow traders through my twitter account and blog (chedstrading.blogspot.com) it launched me on a path of learning and teaching. With enough time that path lead to dedicated studies of Japanese candlesticks and classical charting, and ultimately CMT certification.My career and brand have been built on "helping new traders avoid my old mistakes", and this book is a natural extension of those efforts. This book is also a natural extension of my "Complete Beginners Guide to Trading" that I wrote back in 2017 when I was undergoing chemotherapy for lymphoma. I subsequently beat my cancer and wrote a book about that experience, and have since continued to grow in my journey as a trader and teacher. Building on my years of work with my twitter account, learning blog and various other writings on trading subjects, I am happy to now bring together in one place all those bits and pieces that have helped to make me a successful trader. I have personally made every single mistake mentioned in this book multiple times and therefore can speak from the heart, which I hope makes each lesson a little bit easier to learn. Thank you for reading and best of luck in your trading journey.

How reliable is our intuition? How much should we depend on gut-level instinct rather than rational analysis when we play the stock market, choose a mate, hire an employee, or assess our own abilities? In this engaging and accessible book, David G. Myers shows us that while intuition can provide us with usefuland often amazing!insights, it can also dangerously mislead us. Drawing on recent psychological research, Myers discusses the powers and perils of intuition when: ¶ judges and jurors determine who is telling the truth; ¶ mental health workers predict whether someone is at risk for suicide or crime; ¶ coaches, players, and fans decide who has the hot hand or the hot bat; ¶ personnel directors hire new employees; ¶ psychics claim to be clairvoyant or to have premonitions; ¶ and much more.

From master Reiki teacher Lisa Campion comes The Art of Psychic Reiki, a one-of-a-kind, step-by-step guide for learning the sacred art of Reiki while cultivating the psychic and intuitive skills crucial to this healing energy work. Reiki is a gentle yet powerful, hands-on energy healing method from Japan that's been gaining in popularity over the last century/not only with bodyworkers and massage therapists in the West but also with medical professionals who can attest to its healing power. Born from the author's decades of experience with Reiki healing and her own methods, The Art of Psychic Reiki provides everything you need to know about this healing art, including the critical psychic development and empathy training that prepares healers to go out and do the work they were meant to do. If you're drawn to the healing art of Reiki, you might be a highly sensitive person, with high levels of empathy, intuition, and latent psychic abilities (a combination of intuition and inner knowing, plus the ability to connect with higher wisdom). And since Reiki is a form of energy healing, many new practitioners may experience what's called a psychic opening as they learn or practice. For this reason, it's important that every Reiki practitioner master the ability to navigate their empathic and psychic sensitivities while engaged in this work!and this book can help. Whether you're new to Reiki or you're a practitioner seeking to deepen your knowledge and enhance your skills, with this guide you'll learn how to use Reiki to heal yourself and others, cultivate and trust your natural intuition, develop your empathic and psychic abilities, work with your spirit guides, and ground and protect yourself as a practitioner of this sacred healing art.

For years, traders and investors have been using unproven assumptions about popular patterns such as breakouts, momentum, new highs, new lows, market breadth, put/call ratios and more without knowing if there is a statistical edge. Common wisdom holds that the stock markets are ever changing. But, as it turns out, common wisdom can be wrong. Offering a comprehensive look back at the way the markets have acted over the last two decades, How Markets Really Work: A Quantitative Guide to Stock Market Behavior, Second Edition shows that nothing has changed, that the markets behave the same way today as they have in years past, and that understanding this puts you in a prime position to profit. Written by two top financial experts and filled with charts and graphs that illustrate the market concepts they develop, the book takes a sometimes contrarian view of everything from market edges to historical volatility, and from volume to put/call ratio, giving you all that you need to truly understand how the markets function. Fully revised and updated, How Markets Really Work, Second Edition takes a level-headed, data-driven look at the markets to show how they function and how you can apply that information intelligently when making investment decisions.
